27th November 2026

Dear Parents of Class 9 Students,

In accordance with the new CBSE curriculum prescribed for Class 9 from the academic session 2026–27, we are planning to start Advanced Mathematics and Advanced Science classes from Monday, 30th November. These classes will be held after school, currently from 1:45 p.m. to 2:30 p.m., four times a week. Further details will be shared with students who opt for these classes.

These classes are intended for students who are comfortable with Mathematics and Science and are willing to take on additional academic work. The topics covered will be more challenging and will require a good understanding of basic concepts, along with additional study time. Students who have scored less than 60% in Mathematics or Science in the Half-Yearly Examination should ordinarily not opt for these classes.

Although parents have already indicated their willingness through an earlier Google Form, they may still reconsider their decision at this stage after seeing their child's performance over the past 8 months. Those who wish to withdraw may do so now.

Once a student has opted for these classes and submitted the final consent, regular attendance and commitment will be expected. Students should therefore make this decision carefully and not opt for the classes casually.

An additional examination of 25 marks, lasting one hour, will be conducted on the same day of the Mathematics and Science Final Examination (i.e., 3 + 1 = 4 hrs).

We request parents to make this decision carefully, keeping in mind their child's performance, understanding of the subjects, and ability to manage the additional workload.

Kindly fill this Google Form by 7:00 p.m. today, 27th November 2026, to indicate your final decision and consent: https://forms.gle/Lvetd1BYvApN4sM2A

Thank you for your cooperation.

Kind Regards,

Br. Robert Fernandes
