

Awareness on Cyber Safety & Security

Dear Students/ Teachers/ Teacher Educators/ Parents/ Educators

Technology inventions and its possibility in education have brought a tremendous change in the educational system including online and digital education. It is important to protect oneself from cyber threats and potential risks of using technology. Participate in all the following initiatives to equip yourself and stay safe in the cyberspace.

Join the Telegram Channel to get updates on Cyber Safety & Security

1

- Install Telegram App
- Join the Telegram channel by:
 - ▶ Using the link <https://t.me/cybersafetysecurity> (or)
 - ▶ Search for the channel '@cybersafetysecurity' in the Telegram app (or)
 - ▶ Scan the QR code

2

Watch the videos, take up the quiz and get certified

- Watch all seven videos in the playlist using the link <https://www.youtube.com/watch?v=wyhCX2VyBwM&list=PLUgLcpnv1YifL6cliM6MALkmuaS0k3Nv-> (or) scanning the QR code

- Attempt quiz to check your understanding by using the link <https://infosecawareness.in/sidquiz> or scanning the QR code

- Get certified by scoring 50 % in the quiz

For further learning on Cyber hygiene, join the course on DIKSHA and get certified

3

- If you are a first time user, register on DIKSHA portal <https://diksha.gov.in/> by providing the necessary information and login. Those who are already registered, login using your credentials
- Take the course by using the link https://diksha.gov.in/explore-course/course/do_3132118572713902081183 or scan the QR code

4

Go through the guidelines on Cyber Safety and Security

- Go through the guidelines on Cyber safety & security for students, teachers, parents and schools by accessing the link

<https://ciet.nic.in/pages.php?id=booklet-on-cyber-safetysecurity&ln=en&ln=en> or scanning the QR code
