

HAMPTON COURT

1992

Dear Friends,

The year 1992 was a land mark in the history of Jesus & Mary in India. It brought to a climax and happy conclusion the year long celebrations of the "JM- INDIA JUBILEE".

It was an year of introspection and evaluation. It was also an year of joyful praise and sincere thanksgiving to Almighty God for what he had been able to achieve through the instrumentality of the Sisters of Jesus and Mary in India during the past 150 years.

In Hampton Court many of the year's activities were directed towards knowing more about the Congregation of Jesus & Mary and its various works in different parts of the country. The Annual Day Programme, "LIGHT IN THE DARKNESS" brought to a meaningful conclusion what we in Hampton Court think what Blessed Claudine, our Mother Foundress and our six valiant pioneers would like us to do in the India of today.

With your co-operation we hope to make the dream of Claudine a reality in our world.

Sr. Vianney
Principal.

'Seasons'

I feel happy when it is spring
The flowers are bright and gay,
The rivers are bright, meadows wide
And birds twitter all the day.

I feel happy when it is summer
The days are warm but long
We have time to read and time to play
And can even sing a song.

I feel happy when autumn comes
It's neither hot nor cold,
I go for walks up the slopes
And see the sunset gold.

I find the winter dull and boring
Not as bright as May,
But I wait for it all the same
It gives me a long holiday.

My School

My school is situated in a beautiful place, because from all sides one can see, the beautiful scenery of forests, a near by place Dehra Dun and the Mall and also the Gun Hill. One can come to my school by a beautiful road and reach the Convent of Jesus and Mary. It is a huge yellow building with red roofs. We have a beautiful garden where many kinds of flowers are grown. It has many class rooms, a principal's office, a school office, a big hall which has a big stage on one side and a T.V. and a video on the other. We also have a gym and a T.T. room. Near the Primary class rooms we have a big skating rink. Every one who visits my school praises it very much.

My Garden

Early in the morning
When I look out of my window.
I admire the tall trees,
With heavy hives of bees.
And the sweet smelling flowers
Look as if saying Hello!
And compared to the rest
My garden is the best!

Poem

More than mountains,
More than seas and oceans,
More than fishes and birds and everything
I Love Mother Claudine
For all she did for the good of mankind.
For my education in Hampton Court.
For her respect for God
For her aim to make
Jesus and Mary known and loved by Christian Education
So we claim her the Foundress of Jesus and Mary.
For all those reasons
I love and respect Mother Claudine above everything.

Victory

"How sweet is the taste of victory". Quizes are a source of education.

It was the Maggie quiz in which we gained some "Victory". We were nill at sports but at least we did something in studies. We tried hard so we won.

We were feeling very proud. I was very happy too. Our teacher too was very happy and proud. In the beginning we answered the first question which was a passed over one. After that we answered our real question. So we took the lead in the beginning. There were claps for us. In the assembly hall we were feeling very proud.

"Hard work is the stepping stone to success."

Can You Tell Me

How is the village? Is it lovely or like a cage?
Can you tell me?
The people are poor and have no money?
But what can we do?
Can you tell me?
They have nothing to eat
They are very hungry
But what can we do
Can you tell me?
They are very sad
They get no money
But how to make them rich
Can you tell me?

CLAUDINE THEVENET

Claudine was born in France
She didn't like to dance.
She was very good.
She always wore a hood.
She was very kind
The sick and poor were always in her mind.
After the French Revolution
She started the Congregation
And before she parted
The Convent of Jesus and Mary was started.

Nachiket Chanchani
Class IV B

Mother Claudine Thevenet

There was a girl called Claudine,
She was gentle, kind and clean.
She was born in France,
Where she had started the Providence
She was called "The little violet",
For being good, many prizes she used to get.
She was beautiful and thoughtful,
She was helpful and truthful.
She died on 3rd Feb. eighteen thirty seven,
And she went to live with God in heaven.
Her last words were "How good God is",
And God must have greeted her with a kiss

Class II A

Mother Claudine Thevenet

Mother Claudine Thevenet was the Foundress of the Congregation of Jesus and Mary. She was born in Lions, in France, on 30th March 1774. Her father was Philibert Thevenet and her mother was Marie Antoinette. Claudine had 3 brothers and 3 sisters. Claudine's nick name was Glady and she was also called the Little Violet.

Two of her brothers Louis and Francois were shot in the French Revolution. To help the poor and needy children, she started schools called the Providence. She was kind, honest hardworking, good, helpful and thoughtful. She was also very brave. She died on 3rd Feb 1837. Her last words were "How good God is."

Class II A

CLAUDINE THEVENET

At Lyons in France
Was born the little girl Gladly
She never played any pranks
And was loved by her daddy.

Her father was a silk merchant
And her mother, Marie Antoinette
Generous and kind was Philibert Thevenet
Practical and firm, Madame Thevenet.

Claudine went to a boarding school
To study and not to play the fool
With the outbreak of the Revolution she came back
Feeling very sad and never to go back.

Francois and Louis were shot during the Revolution
So Claudine decided to start a new Congregation
She spent her life caring for the orphans
Making Jesus and Mary known to all nations.

She said, "A gift to the poor is a loan to God"
'Love most the naughty, the dirty and the sad'
Seeing the misery and pain she did sigh
And said, "Cherish charity as the apple of your eye."

By Class IV

MARIE CLAUDINE

Over the distant land of France
Lived a maiden who left nothing to chance
Her name was Marie Claudine
She had to leave school at fifteen.

We love Claudine Thevenet
Whose father was Philibert Thevenet

She had three younger sisters
Jean, Francois and Louis were her brothers.

"Forgive Gladly as we forgive", said her brothers
"How good God is!" were the words of their sisters
She died in eighteen thirty - seven
To be with her father in heaven.

An elephant

An elephant is big and tall,
His eyes and his tail are small,
He is mighty and strong,
And his trunk is very long,
An elephant's ears are like fans,
His legs are like huge cans,
The tusks are his teeth,
Sugarcane and nuts are what he 'likes to eat,
An elephant's baby is called a calf,
In circuses, they make the children laugh,
An elephant trumpets,
And some elephants are kept as pets,

Class II A

A Deer

A Deer is a dear,
He is kind and gentle,
Of him we need not fear.
He has large, brown eyes,
And he bells when he cries.
His antlers are his horns,
They look like thorns,
The antler's also look like a crown,
And the deer is brown.
When his baby is born,
It is called a fawn.
Deer runs very fast,
And they can never come last.

Class II A

A Lion

A lion is a king
The whole forest trembles,
When he is walking,
A group of lions is called a Pride,
When the animals see them,
they all hide.
A lion roars,
He likes to chase boars,
He has a mane around his face,
With other lions he likes to race.
Lions live in dens.
And he eats, deer, rabbits and hens.
A lion is yellow,
But be careful of this wild fellow.
The king has long and sharp claws,
At the tip of his paws.
The king is ferocious,
But his cubs are mischevious.

Class II A

My mother

My mother is tall,
She likes me because I am small,
She is thin,
And she is as neat as a pin,
Her saree is long,
And she can sing a lovely song,
She has long, black hair,
And she likes the sunny air.
She is wise,
She looks nice,
She likes me,
And her name is Saloni

She is very pretty
And she lives in a city,
She is always right,
She always looks bright

Class II A

A TREK TO THE SOURCE OF THE RIVER BEAS

During the summer holidays, we decided to go to Himachal Pradesh. Kullu and Manali were very crowded so our father said that we should go to Solang Nala. It was very peaceful in Solong Nala and we spent few nights in a tent.

One morning we decided to go to the source of the river Beas. So we started out with a rucksack with warm clothes and food in it. After walking five kilometers we lost our path. There was a big glacier and under the glacier was the rushing river Beas. The only way was to walk over the glacier (snow bridge) It was quite dangerous to walk across the glacier because if the ice would break we would fall into the rushing river Beas.

Suddenly my brother found a horse shoe and he said I am sure we will get some good luck. Just then a shepherd came from round the bend. We asked him to show us the way to the source of the Beas and he agreed because his sheep were grazing in a meadow not very far away from there.

Soon we reached a big stream and we had to walk across it because there was no bridge. Our feet nearly froze. We were almost in tears and the shepherd told us many times to go back to Solang Nala. But we were brave and we walked on over more glaciers, meadows and forests. Then we came to a cliff and we crossed it by holding on to rocks and grass.

The shepherd was walking below us so that he could save us if we fell.

At last we reached where the flock of sheep were grazing. Two big black dogs and another shepherd were guarding the sheep. The shephard gave us some goat milk and we tried to catch the young lambs. the shepherds had no hut or tent. At night they would tuck a little lamb in their blanket and sleep in the middle of all the other sheep.

From here we had to climb a steep mountain. This time the other shepherd and all his sheep followed us. When we reached the top it was very very wonderful. There was a circle of high snow covered mountains. The snow from these mountains was melting and all the water was collecting in the middle and this is how the Beas river is being formed.

We got back to Solang the same way we had come.

Class III A

My favourite Game (Cricket)

There are many games played in the world, some being played for name, fame and money. Games are also a source of entertainment. They are good physical exercises too.

Cricket is my favourite game. It is played in every corner of the world and is enjoyed by everyone.

Cricket is played between two teams each having eleven players. When the game is played there are two umpires on the field to make certain decisions. The decisions made by the umpires are respected by all the players.

Whichever team wins the toss decides whether it is going to do batting or bowling first. Only two players of the team which is batting, stay on the ground first. Whereas all of the players of the opposite team are present there to do bowling and fielding.

When the players of one team get out or the overs are completed the next team takes over and starts batting and this team does the bowling and the fielding. Whichever team makes more runs is declared the winner.

There are two types of cricket matches - one being the one day match and the other being the test match which is played for 5 days. This is a game which I really enjoy playing and watching.

Tree Plantation in my school

The day began like any other school day with morning assembly followed by classes. But August 5, 1992 turned out to be an interesting day - a day to remember, for we had an interesting experience - call it an outing or an adventure. Above all it was interesting because we did something useful on this day. When we went back to our classes after lunch, we were informed by our Principal that the Forest Department had sent the saplings she had asked for and she would like us to plant them.

I was delighted to know that I could be able to do something useful while having fun at the same time. Soon after, we trooped out guided by our teachers. There was a slight drizzle but we were too excited to care and off we went down towards the Cliff Cottage to a place which sloped along a hill. The ground was wet and slippery, and we had to balance ourselves carrying the plants. Finding some proper place we dug up the earth and rooted the plants into the ground. Our hands and legs and our clothes were all muddy when we came up. But there was tremendous delight in our hearts. We knew that after a few years the plants will grow into trees and the hill will be covered by a forest.

My parents were shocked to look at my condition with mud all over me but I asked them to take it easy! After all it was a small price to pay for the great work I had done. I surely had done something to save our environment in this year of the Earth Summit.

Rajat Sharma
Class V

The subject I dislike most

The students of today are overloaded with a variety of subjects taught in school. Some subjects come in use in our daily life like mathematics. When we go for shopping we have to deal with money and weigh something etc. On the other hand subjects like history are of no use in our daily life. We learn it simply to know about our past and perhaps learn from our mistakes.

Grammar is of course important. Without it we cannot understand each other. English Grammar is a subject full of exception to the rule, which makes it quite difficult to understand. To crown it all we are asked to write essays

every second day. Getting our ideas and writing them down is bad enough, we even have to pay attention to the paragraphing, punctuation and what not. Would you believe that a small comma changes the whole meaning of your sentence like:-

"Let us eat Hari,

Let us eat, Hari.

The missing comma turns you into a cannibal!

So you see you can't blame me for disliking English Grammar.

SHARKS

The largest fishes are sharks. They have cartilages (gristle) instead of bones so they are called cartilaginous fishes. The sharks belong to the class Elasmobranchiomosphi and are divided into three groups which are Heterodontiformes, Heterodontiformes and lamniformes. There are 300 different species of sharks. The blue shark is 3 metres long. The largest shark, that is the whale shark, is 18 mtrs, the basking shark 12 mtrs and the smallest

shark that is the dwarf shark 9 inches. The small sharks lay from 20 to 50 eggs and the big ones only 2 or 3 eggs so when caught in large numbers they become rare. Their food consists of whales, tortoises, turtles, small fishes, shellfish and even man so there are man eater sharks,. The great White shark is the most deadliest man-eater shark.

KERALA

Kerala is located in South India. Its capital is Tiruvantapuram. It has 14 districts. It is one of the smallest states in India.

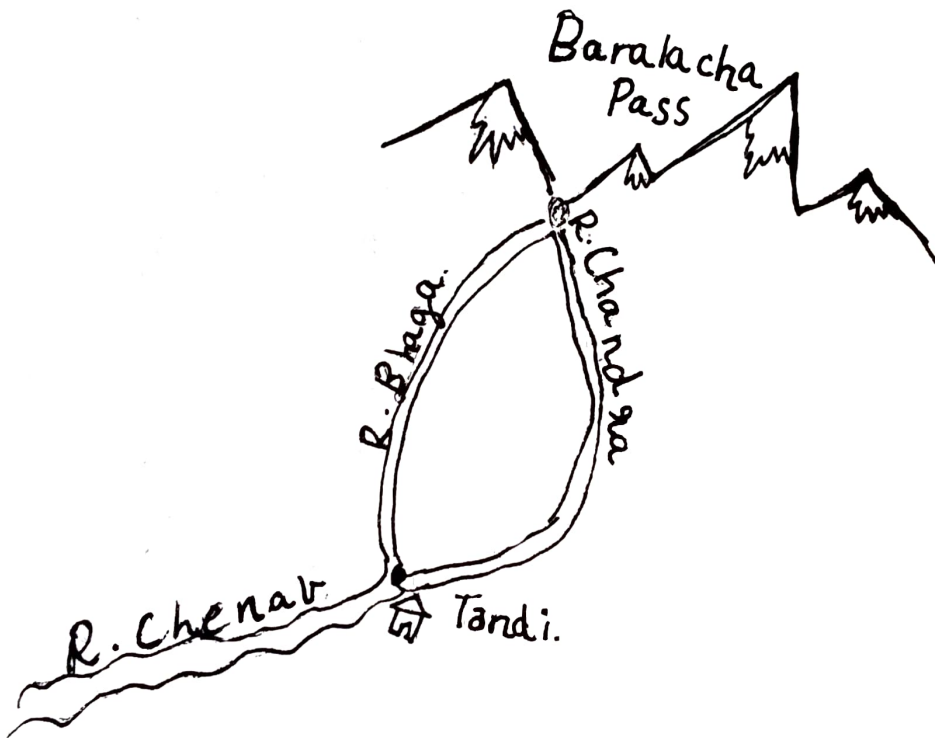

Vasco de Gama came to Kerala in 1498. Earlier Kerala was divided into kingdoms. The state of Kerala was formed in 1956.

Kerala gets plenty of rainfall. Kerala produces spices, rubber, tea, coffee and coconuts.

Kerala has a tropical climate. Onam is a very important festival of Kerala. The language of the state is Malayalam.

LAHUL - THE LAND OF CHANDRA AND BHAGA

Once upon a time very long ago the moon's daughter Chandra wanted to get married to the sun's son Bhaga. However their parents would not agree to this. So they came down to earth on a high mountain Pass (Baralacha Pass) and went on different courses and met at a place called Tandi and became a river called Chandra- Bhaga or Chenab.

Lahul is a barren and cold land. There is hardly any vegetation here. The monsoon clouds do not reach here as they are blocked by the high mountains. To get to Lahul, people have to cross the high Rohtang Pass 13,000 feet high. But we can only cross the pass in July, August, September, and October. Rest of the time there is heavy snow.

The people of Lahul lead very hard lives. They live in small villages by river and with great difficulty they grow a good crop of potatoes and wheat. The people do not keep many animals here as grass is scarce.

An unusual domestic animal that the people keep is the yak. It provides them with butter, milk, dung, hide and when dead it is used for food.

Arora
Class V

with meat. It also helps them by carrying goods from one place to another and so it has earned the name 'The beast of burden'.

A BUDDHIST
SHRINE

The Lahulis are mostly Buddhists. So there is a Gompha (Buddhist monastery) in the village. Inside the monastery there are big statues of Buddha painted in gold. There were also brightly coloured carvings and paintings. The carvings were mostly of dragons and the paintings on silk were mostly of Buddha and his life story. We enjoyed our summer holidays

अपना देश

कितना प्यारा अपना देश,
उत्तर, दक्षिण, पूरब, पश्चिम
में सबसे न्यारा अपना देश।
भारत अपना देश है,
यह देश महान है।
कितने वीरों ने जन्म लिया,
इस भूमि पर
कितनों ने दी कुर्बानी
वीर शिवाजी, चन्द्रगुप्त जन्में इस पवित्र भूमि पर
करते थे वे सब भारत की जयकार
जय भारत, जय वीर जवान,
जय जवान, जय किसान।

Vipin Tomar

महान पुरुष

यह देश था गुलाम एक बार अंग्रेजों का,
जिन्होंने हम पर कर रखी थी गुलामी।
गांधी जो थे महान, और भारत को बनाया मूल्यवान।
भगत सिंह जैसे महान, फासी पर हसते-हसते दे
दिये अपने प्राण।
फूल खिले हैं रंग बिरंगे,

इसलिए झंडा रंग बिरंगा ।

भारत में पैदा हुए थे सिपाही

तनदुरुस्त लड़े देश की आजादी के लिए यह महान पुरुष ।

जेल गये इतनी बार लड़ते-लड़ते मानी ना अपनी हार ।

आजादी मिली १५ अगस्त को, अंग्रेज जो कर रहे थे गुलामी ।

डर के मारे भाग गए अंग्रेज इस देश के बाहर ।

१५ अगस्त की याद रहेगी, मन से यह याद करेंगे

१५ अगस्त को और उन वीरों की कुरबानी ।

मेरा भारत महान

मेरा भारत महान है सर्वशक्तिमान

इसके कल-कल करते झरने

बुझाते हैं सबकी प्यास

इसकी गोद में पलते स्वयं भगवान ।

ये भारत की पवित्र भूमि,

जननी है सहस्र वीरों की ।

धन्य हूँ मैं भारती,

जो पाया यह नाम महान ।

Nipun Kumar

मेरा देश महान

भारत हमारा प्यारा देश है । यह हमारी जन्मभूमि एवं कर्मभूमि है । मैंने यही जन्म लेकर इसी भूमि पर चलना और बढ़ना सीखा है । भारत में ही मेरे माता-पिता का जन्म हुआ है ।

सचमुच प्रकृति ने इस देश को बड़े प्रेम से सजाया है । पर्वतराज हिमालय इसका मुकुट है । यह मुकुट ही नहीं, शताब्दियों से इनका प्रहरी भी है । यहाँ पर भारत की ताकतवर सेना भी है । दक्षिण में हिन्द महासागर इसके चरण पखारता है । पूरब में बर्मा और पश्चिम में अब इसी का एक भाग पाकिस्तान है ।

बहुत पहले, एक बार राजाओं के आपसी फूट और झगड़ों के कारण विदेशियों का प्रभाव देश में बढ़ा और भारत उनके अधीन हो गया । कई सौ वर्ष के बाद १५ अगस्त, १९४७ को भारत फिर से स्वतन्त्र हुआ । भारत स्वतन्त्र तो हुआ लेकिन उसके दो टुकड़े हो गए - भारत और पाकिस्तान ।

गुलामी से पहले और गुलामी के समय भारत में समान विदेश से आता था, लेकिन अब भारत में ही चीजे बनती हैं। भारत में खूब फसल होती है, अब तो विदेशी हमसे अनाज खरीदते हैं।

भारत २६ जनवरी १९५० ई. को गणतन्त्र हुआ था और १५ अगस्त १९४७ को आजाद हुआ था। जवाहर लाल नेहरू हमारे पहले प्रधानमंत्री बने थे ॥

मुझे अपना देश भारत बहुत अच्छा लगता है।

जय हिन्द !

भारत देश महान

चुटकले

१. एक बार एक बच्चा होता है, एक दिन वह स्कूल को लेट आया, उस के मास्टर जी ने पूछा तुम लेट क्यों आए उस ने बोला मैं गिर गया था और मुझ कुछ लग गई। फिर मास्टर जी ने पूछा तुम कहां गिरे और तुम्हें क्या लगा। उसने बोला मैं बिस्तर पर गिर गया था और मुझे नींद लग गई।
२. डॉक्टर (मरीज से) - इस ऐनक को लगा कर तुम साफ पढ़ सकते हो।
मरीज - तब तो यह ऐनक मुझे जरूर दें क्योंकि मुझ जैसे अनपढ़ के लिये यह बहुत उपयोगी है।
३. पिता पुत्र से - बेटा अंधेरे में आंखे फाड़कर क्या देख रहे हो।
पुत्र - पिताजी आज मैं देखना चाहता हूँ कि सपने किधर से आते हैं।
४. मकान मालिक :- भाई तुमने तीन महीने का किराया क्यों नहीं दिया है ?
आदमी :- ये लो सौ रुपया एक महीने का किराया।
मकान मालिक :- केवल सौ रुपये ?
आदमी :- शुक्र करो कि यह भी मिल गये, तुम्हारे कमरे के पीछे का दरवाजा बेचकर सौ रुपये भी मिल गये, वरना आगे का दरवाजा भी बेचना पड़ता।

“प्रतीज्ञा”

आज समय की मांग यही है,

काम बहुत हमको करना

आगे कदम बढ़ाना हो तो

बाधाओं से क्या डरना।

बच्चे हैं पर समझ रहे हैं,

चलना है किन राहों पर

यह न समझना डर जाएंगे

बहुत शक्ति है बाहों पर।

नहीं बाट सकती हमको अब
धर्म, जाति की दीवारें,
एक देश है सभी एक हैं,
यही सत्य हम स्वीकारें।
आओ मित्रों करें प्रतीज्ञा
आगे बढ़ते जायेंगे
मिल जुल कर हम रहें हमेशा
यही बात दुहरायेंगे।

स्वाधीनता दिवस

१५ अगस्त १९४७ को भारत स्वतंत्र हुआ था। भारत पहले अंग्रेजों का गुलाम था। अंग्रेज भारत पर जुल्म करते थे। जो समान हमारे देश में बनता था, वो वह विदेश भेज देते थे।

जब गांधी जी जवाहरलाल नेहरू, लाला लाजपत राय और कई अनेक नेताओं ने यह देखा, तो वह भारत को शान्तिपूर्वक आजाद करवाना चाहते थे। कुछ क्रान्तिकारी ऐसे भी थे जो यह समझते थे कि अंग्रेजों को मारपीट कर भगाना चाहिए। इनके नेता भगतसिंह और चन्द्रशेखर आजाद थे।

अंग्रेजों ने भारत में १५० वर्ष तक राज्य किया था, लेकिन अंत में वह हार गये और १४ अगस्त १९४७ को “१२.००” बजे रात को वह भारत छोड़ कर चले गए। इस दिन अंग्रेजों ने बहुत से वीर शहीदों को फासी पर लटका दिया था। वह खुशी-खुशी फासी पर लटक गए।

१५ अगस्त १९४७ के सुबह “८.००” बजे चाचा नेहरू ने लाल किले पर तिरंगे झंडे को फहराया था। इसलिए १५ अगस्त को प्रधानमंत्री लाल किले पर तिरंगे झंडे को फहराते हैं।

तिरंगे झंडे में तीन रंग हैं:-

केसरिया, सफेद और हरा। तिरंगे झंडे के बीच में एक चक्र भी है। इस चक्र के बीच में २४ लकीरें हैं। यह लकीरें हमें यह बताती हैं कि हमें २४ घंटे मेहनत करनी चाहिए, केसरिया रंग त्याग और बलिदान का सूचक है, सफेद रंग शान्ति और मित्रता का सूचक है और हरा रंग समृद्धि का सूचक है।

१५ अगस्त एक राष्ट्रीय त्यौहार है। इस दिन झंडे को २१ तोपों की सलामी दी जाती है, इस दिन स्कूल, बाजार, कॉलेज आदि बंद होते हैं।

स्कूल में मिठाई मिलती है, तिरंगे झंडे को फहराया जाता है और बच्चे जलूस निकालते हैं। प्रधानमंत्री दिल्ली में भाषण देते हैं और विद्यार्थी स्कूल में कार्यक्रम करते हैं।

१५ अगस्त को वीर शहीदों को याद किया जाता है और दो मिनट का मौन रखा जाता है।

लोग खुश होते हैं और राष्ट्रीय गान गाते हैं।
