1993

1993

The School Year began on 15th March

on an exciting note:

the forthcoming celebrations of the

Canonisation of Bl. Claudine Thevenet,

the foundress of the Congregation of Jesus & Mary.

We take this opportunity to thank

all our collaborators, friends, relatives, pupils

both past and present

for their big and small contribution

towards this great day of grace,

rejoicing and thanksgiving.

St. Claudine Thevenet

Was canonised in Rome by Pope John Paul II on 21st March 1993.
May her pedagogy of love, goodness and foresight
lead all our young people to develop fully
and acquire the skills to face life,
making the world better and more beautiful!

She challenges us in a world torn by violence and thirsting for reconciliation!

Dina said "yes" to love - always.

The only child of a well-to-do family, she was gifted and had a brilliant career awaiting her but her determination to become an apostle of love led her to leave all and follow Jesus & Mary. She was declared Blessed by Pope John Paul II in Rome on 20th March, 1993.

She is offered today as a model of love to all our young people.

My Heart Still Thrills with Joy!

My joy knew no bounds! I was one of the few sisters in India chosen by lot to witness the honours the Church was paying our Foundress Claudine Thevenet and another sister, Sr. Dina Belanger. My joy was doubled when my sisters of Hampton Court all joined in my excitement and fitted me out for this trip - my first abroad. The flight - long and beautiful to Rome, the eternal city, the city of churches, catacombs and martyrs - which was hitherto only words now became alive and meaningful. I just gazed around in amazement!

On the afternoon of 20th March we went to St. Peter's Basilica for Vespers. It was a joy to see more than 600 Religious of Jesus and Mary from all over the world greeting each other in love. Parents, relatives, staff and students all told 7000 came to witness the honour the church was giving Dina Belanger by declaring her Blessed. There was a moment of emotion when the banner of Bl. Dina was unfurled. Bl. Dina belonged to the Canadian Province. How proud they were of her! A musician, Dina must have joined her sisters in singing the praises of God.

The next morning we went again to St. Peter's for the Canonisation Mass. Sixty bishops and priests concelebrated with the Holy Father. How our hearts thrilled as the Holy Father declared our Foundress a saint! There were loud cheers and clapping. Our convent at Via Flamina, Rome invited all the JM's to a festive dinner. How united we felt in this family atmosphere! Mother General appealed to us to be reaffirmed in our vocation and to live it in holiness.

Several other gatherings - both cultural and spiritual followed: A general audience with the Holy Father. The whole world of JM's was represented there. A meeting of the Family of Jesus and Mary - an association of lay people met and confirmed their solidarity with the Charism of Jesus and Mary.

We visited Lyons - the birth place of our dear Foundress - saw where she lived, worked and prayed. I have no words to express my experiences as I walked the places she walked and prayed at the Shrine of Our lady of Fourviere where our Mother Foundress often came to Mary in her need. Visiting St. Bruno's Church - the parish to which she belonged and the Chapel of Retreats where Fr. Coindre appointed her as the first Superior General of the Congregation. I had you all in my heart and I just thank God for St. Claudine Thevenet and my calling to follow her in Jesus and Mary.

Claudine Thevenet

Claudine Thevenet was born on 30th March, 1774 in Lyons, the country of France. Her father Philbert Thevenet was a wealthy merchant and her mother Antoinette Thevenet was a kind hearted woman.

She was born into a family of seven. She had three brothers and three sisters. She was the second in the family. During childhood she was called Glady and her nick name was Little Violet. At the age of eight she was sent to a boarding school that was run by the Benedictine sisters.

In 1789 the French revolution broke out due to which Claudine had to stop her education. In this war Claudine's two brothers were shot dead. The war ended in 1806. After the death of her two brothers Claudine began looking after the orphanage. She left home in 1819. She even started her own Convent Schools called " Jesus and Mary ". She was then known as Mother Ignatius.

After doing so many good deeds she died on 3rd Feb. 1837 with her last words "How Good God is". Now in 1993 on 21st March Mother Claudine was declared a saint in the church of Rome.

Mother Claudine

More than mountains,
More than seas and oceans.
More than fishes and birds of all kinds,
I love Mother Claudine,
For all she did for the good of mankind,
For our education in Hampton Court.
For her respect for God,
For her aim to make Jesus and Mary known and loved.
She is still remembered and loved.

Farewell to Sr. Vianney

*Do you know someone who is loving?
Who is kind, generous and caring?
Who is patient, obedient and God fearing?
Do you know someone who is encouraging?
Have you met someone who is truthful?
Who is concerned, loyal and helpful?
Who is thoughtful and grateful?
Have you met someone who is ever faithful?
She is punctual and jolly,
She is optimistic and orderly,
She is courteous and friendly,
And she is disciplined and motherly.
Haven't you guessed who is gentle?
Haven't you guessed who is humble?
Haven't you guessed whose virtues and qualities are many?
It's our one and only Sister Vianney.*

He - Men

The day I met He-Men face to face is an unforgettable day for me. On Investiture Ceremony day some I.T.B.P. men put up a karate show for us. They looked so strong and well built that if I had not actually seen them in action, I would not believe any one could actually break bricks with their bare hands or break a thick piece of wood on someone's stomach.

I got quite shocked when I saw one person actually place nails on his stomach, then another man placed a brick on it and broke it. I could not understand why those nails did not enter his stomach? He-Men !!! They sounded as if they were pumping air inside themselves. They showed self defence actions and even broke glass without hurting themselves. Indeed it looked as if He-Man had come alive and I almost expected 'Skeletor' to drop any minute to complete the picture.

The Man Eating Leopard of Rudra Prayag

During my holidays to the hills of Garhwal and Kumoan, just as we reached the town of Rudra Prayag my father suddenly stopped the car in front of a board which boldly said:

THE SPOT WHERE THE MANEATER OF RUDRA PRAYAG LEOPARD WHO KILLED 126 HUMAN LIVES. SHOT DEAD BY JIM CORBETT ON 2-5-1926.

I got very excited. I had often heard stories about this maneater who roamed around the area between the Alaknanda and the Mandakini rivers. People in these parts lived in great fear. No one dared to go outdoors after sunset.

A great reward was offered by the British Government to anyone who killed the leopard. Many brave villagers as well as famous Shikaries tried to kill the leopard but failed. The leopard was so cunning that people began to think that it wasn't any ordinary leopard but an evil spirit.

Here are some amazing stories about the maneater:

Once a fat sadhu from the South came with a party of 20 people. The villagers of Rudra Prayag told them not to sleep in the open. The fat sadhu

boasted that he was not afraid of the maneater and that he would take care of his people. That night the maneater came. It crossed over 10 sleeping people, picked up the fat sadhu who was sleeping in the middle, and then again crossed over 10 people without waking a single one of them. Then he ate the sadhu a little away.

A second story:

One evening two friends were sitting in a house and smoking a hookah. The door was not bolted, the leopard came in very quietly and took the friend who had the hookah in his hands. The victim's friend had no idea that the leopard had carried away his friend and he went on talking: " Oh friend don't be so careless. You can set the whole house on fire by dropping the hookah. " Then as he bent down to pick up the fallen coals he saw by the light of the moon his friend being carried out of the door by the maneater.

The leopard kills its victim by grabbing it by the neck. In less than a blink of an eye the victim dies. For eight years this maneater went on killing people.

Then in 1925 the great shikari Jim Corbett decided to try and kill the leopard. For a whole year he followed the maneater but could not trap or shoot him. Each time the maneater was luckier and cleverer than he.

Then the pilgrim season of 1926 came. Jim Corbett found out that the maneater was coming into Rudra Prayag every five days. Corbett built a Machan on a big mango tree by the side of the main road. He tied a goat under the tree. He sat on the tree for ten nights but no leopard came.

Then on the eleventh night the maneater came. It was a pitch dark night. Some dogs barked. The leopard was near. Suddenly the bells around the goat's neck tinkled. Jim Corbett took a shot in the dark. Thereafter there was silence but Corbett did not know whether the maneater had been killed or not. He sat up in the machan for the rest of the night. Jim Corbett had decided that whether he had failed or succeeded, this would be his last night in Garhwal. Next morning, in a ditch, quite near the mango tree, Jim Corbett found the dreaded maneater lying dead!

An Educational Tour

The tour is one of the most interesting and exciting moment in a child's life because he gets an opportunity to see new cities and places which he has never visited before.

Last year our Principal had taken us to Jaipur and Agra to visit the historical places. This year the trip was decided for Rishikesh.

Rishikesh is a place of pilgrimage. There are many temples over there. The holy river Ganges flows through Rishikesh and it a good place for river rafting.

On 29th October we were to leave for Rishikesh. We had our breakfast at 7 o'clock and left for Rishikesh at 8 O'clock. We had hired a delux bus which had a stereo in it. We enjoyed ourselves by singing in the bus.

We reached Rishikesh at 11.45 a.m., before going to the hotel we went to one of our classmates house. We refreshed ourselves at their place and then went to the famous Basera Hotel.

We had our tea in the evening, and we then left ot see the Lakshman Jhoola. When we walked on it we felt the bridge swing to and fro.

After that we went to Geeta Bhawan where we saw different statues of different Gods and Goddesses. We then went to the famous Chotiwalla restaurant and had some snacks there. I did a bit of shopping from the shops nearby.

On the way back to our hotel we crossed the Ram Jhoola. We reached the hotel at 7 p.m. and had our dinner at 8 p. m. and then went back to our rooms. We changed our clothes and then hoped that the next day would pass well.

The next day we left for Chilla, over there we saw a barrage, and then went to a lake where we saw many big fishes. Chilla is famous for its elephants but unfortunately we were not allowed to go inside as the road was under construction. We had our lunch in the rest house and played several games there.

At 3 p.m. we left the place and had tea at Basera, then picked up our bags and were back on our way to Mussoorie. We reached Mussoorie at 7.15 p.m. and all the sisters and teachers were happy to see us back safe and sound.

My Favourite Teacher

The school I study in is a primary school. I am in class V A. There are twenty teachers on the school staff.

My favourite teacher is Miss Nita. She is the class teacher of class V A. She teaches us most of our subjects. They are - English Literature, English Language, History, Art, Dictation and Writing. Miss Nita is a very experienced teacher. She knows and understands our difficulties and so she teaches us step by step and explains our problems very clearly. It must have been her ambition to become a teacher as she is so keen and interested in teaching students. The way Miss teaches is easy to understand. She can make any subject sound easy. Often Miss amuses the students by a little joke. Miss Nita treats all children alike. She is strict like our other teachers and wants discipline but she never punishes too harshly. Miss is regular and punctual. She gives extra time to weak students. She is known all over the school for her goodness. Her concern for the education of students is great.

I thank God for giving me such a nice and experienced teacher who not only teaches us subjects but good manners also.

A Visit to a Hill Station

Our school had closed for the summer vacations for 15 days. So my parents decided to take me to Shimla.

We packed our luggage and got ready for the journey. We went by train to Shimla. The journey was very interesting. We enjoyed travelling by train. The train passed through many tunnels. It was a very small train. We reached Shimla in the evening, and we put up at a hotel.

Shimla is one of the best hill stations of India. It has many beautiful spots to visit. Next day, after breakfast, we went to see the town. We visited Mashobra, Narkanda, Naldera and Kufri. Many tourists from different parts of the country had also come to visit these places.

Next day we went for a walk along the Mall and Chota Shimla. We enjoyed the scenery all along. These places are worth visiting. We even went to see the skating hall. Shimla has a healthy climate. It is a beautiful summer resort. The mornings and evenings are pleasant. We stayed there for a week. I cannot forget my visit to Shimla. I am longing to visit it again.

My School Days

I can still remember the day, when I was left in Hampton Court as a boarder, then I was only a small five year old child and the year was 1988.

The first day was spent in crying as I was away from my parents. I had no friends at that time but I had an elder brother, Akhil, to move around with, but soon, I had quite a number of friends.

All the teachers took loving care of me and taught me to count. The matrons taught me to dress up. In those days our Principal was Sr. Ida. She was very good and caring.

Within a few months I had learnt how to dress up and could make my bed too. Soon years passed like days and everything changed. When I was eight years old and in class III, I had to change my dormitory. I now shifted to the 'Saint Michael' dormitory.

Here there were mostly Catholic students and I enjoyed their company. All the teachers in my class were satisfied with my work and academic performance.

This year, I am in class V - my last year in the school

In the beginning of the year I was elected as the Captain of the Green House and I was given my badge on 21st April on the Investiture Ceremony Day. I was very happy.

Now that it's time for me to leave the school, I would like to thank all the sisters, teachers and matrons, as they worked so hard for me and my friends.

I had entered the school with tears in my eyes, and again today my eyes are filled with tears as I bid goodbye to my dear school and friends.

I will be very proud to be an ex-student of Hampton Court as this school has played a very important role in building my personality and character.

Teachers

A teacher is called the builder of the nation. The teaching profession needs men and women with qualities of head and heart. Teachers are the people who are to be given respect and importance.

Teachers impart education to others and make them literate.

Teachers are responsible for the development of a child and of the country's advancement.

Teachers bear the torch that enlightens the world, fixes the imagination of man and feeds the flame of genius.

They are the parents of progress and creators of culture.

The school is their work-shop, where they make better citizens of tomorrow.

They make the children ambitious and open the doors of a new world to them.

The Person I Admire Most

My favourite leader is Mahatma Gandhi. He was one of the great men of the world. His full name was Mohandas Karamchand Gandhi. He was a godly man and was admired by the whole world. He had a loving heart for the poor and homeless people. That is why he is known as the 'Father of the Nation' or 'Bapu'.

Gandhiji was born in Porbandar, in Gujarat on 2nd October, 1869. He received his early education at home. Then he went to England for higher studies and became a lawyer. Later on he became a politician and started the non-violent movements. Several times he was sent to jail. Then after a long agitation the British Government had to leave India and go back to England on 15th August, 1947.

Mahatma Gandhi lived a long life. He achieved his greatest wish, that is the freedom of India. He met a martyr's death because he was working for Hindu Muslim unity. By his life and death he has served his motherland.

A Cup of Tea

Tea is quite an old beverage. It was first drunk as a beverage in China and Ceylon.

It is a very useful beverage. It refreshes the mind. It takes away laziness and keeps us alert. Watchmen keep a flask or two with them to keep awake in the night. Though it is a refreshment, it is dry. The caffeine content is quite high and it may dry the intestine.

It needs a lot of rain but water must drain away, lest it may kill the plant. The tender leaves are plucked, dried, crushed and packed in boxes for sale.

Tea is easy to prepare. Water is boiled. Tea leaves are added. We pour the water into cups, add sugar and pour some milk for flavour. Some people like to have black tea with lemon, infact if honey is added instead of sugar it proves to be quite good in curing common cold.

Tea is the most famous beverage in poor countries. Tea is normally had twice a day, but in India all time is Tea Time. Everybody likes Tea.

A Story

Once upon a time, there lived a lion and four bulls in a forest. The bulls never used to fight. They always lived together. The lion could not kill any of them. One day the lion thought that he must do something so that they do not live together. He called one bull and said, "My dear, you are very weak, your friends are very healthy, they eat much more grass and you get very little; so why don't you live alone?" He said this to all of them and one by one the bulls started living alone.

Now one day the lion killed one bull. The other day he killed the second bull. In this way he killed all the four bulls.

We should learn from this story that if we live together, we are safe. Unity is strength.

THERE LIVES IN ENGLAND AN OLD GRAMMAR FAMILY.

Mr. Noun is a very important man but he has a little son Pronoun who always tries to impersonate him and take his place. Mrs. Adjective is a very good wife and always praises her husband Mr. Noun.

Their elder son Verb is very Active and always keeps himself busy doing something or the other. His sister Adverb is a great admirer of his and keeps telling his qualities to her cousins, conjunction and preposition; who in turn never tire of matchmaking and keep connecting him with their good friends the Tenses.

Miss Past Tense has a dark complexion and keeps thinking of her past deeds. Miss Present Tense is fair and hardworking. She believes in living life one day at a time and concentrates on the work at hand. Miss Future Tense is the prettiest of the three but she is a day dreamer.

Now Verb was facing the problem of whom to choose for his wife. Grandfather Grammar doesn't befit a suitor. He made Verb understand that his little Sentence world depends on the Tense he chooses. So verb decided to stop sending Indirect messages through Second Person to the Third and boldly adapted the method of Direct Speech. He even gave Miss Present Tense an Article of great value and to his great joy she accepted.

So Grandfather Grammar gave his Continuous blessings to the two and now their object is to have an offspring who would turn their Grammar family into such an important Subject that every child from far and wide knows them well.

Queer Addition

Colonel Crackham asked the junior members of his household at the breakfast table to write down five odd figures that will add up to make fourteen. Only one of them did it. Can you?

"Chaos in Maths"

Oh! I think Maths is fun,
But when it's time to learn,
My students take a U-turn,
They say "Miss Maths is easy"
But we don't do it coz we are lazy,
For the weak ones "Maths is a terror"
All they do is make a thousand errors,
The bright ones think they know every thing,
But when its examinaiton time they are left thinking,
The naughty ones say "Maths - Go away for heaven's sake,
And stop us from jumping into the nearby lake,
All you give us is tension and strain
And eat up what's left of our tiny brain"
All my students are loving and nice,
But I wish they would learn Maths before thinking twice,
And when they give a Maths test.
They would say " You are my favourite guest".

Easy Multiplication by 11

Can you multiply 51324372041 by 11 in 2 seconds without using a calculator? You can using 'The Trachtenberg System of Basic Mathemetics.'

Let's learn:-

E.g. 721324×11

First Step: The last figure is put down as the right hand figure of the answer $721324 \times 11 : 4$

Second Step: Each successive ffigure is added to its right hand answer
 $721324 \times 11 : 934564$

Third step: The first figure of the number becomes left hand figure of the answer. $721324 \times 11 : 7934564$.

The answer is 7934564.

Try the above yourself now.

The Place I Live In

The place I live in is Mussoorie. It is in Uttar Pradesh. It is a hilly area. It is also called the Queen of the mountains. It's height is 6000 ft. There are many hotels here for the visitors. The places to visit here are Kempty Fall, Gun Hill, Company Garden, Dhanolti, Mussoorie Jheel, Wonder World and Lal Tibba. Here are very nice schools where the children come to study from far away places. There are three main Bazaars here-Landour, Library and Kulri. There are shops where people can buy wood handicrafts and many other things. It is very cold here in winter, especially when it snows. I like Mussoorie very much.

God's Love

*God's love is so wonderful.
God's love is so deep.
It's deep as the ocean.
That we cannot peep.
God's love is very high.
As high as the sky.
God's love is very bright.
As bright as the stars at night.*

Lord's Creation

*Lord you gave us sleep and rest.
Lord you gave us love and joy.
Lord you gave us hands and legs.
Lord you gave us life and death.
Lord you gave us friends to lend.
Lord you gave us creatures and preachers.
Lord I thank you for all the nature.*

Mother

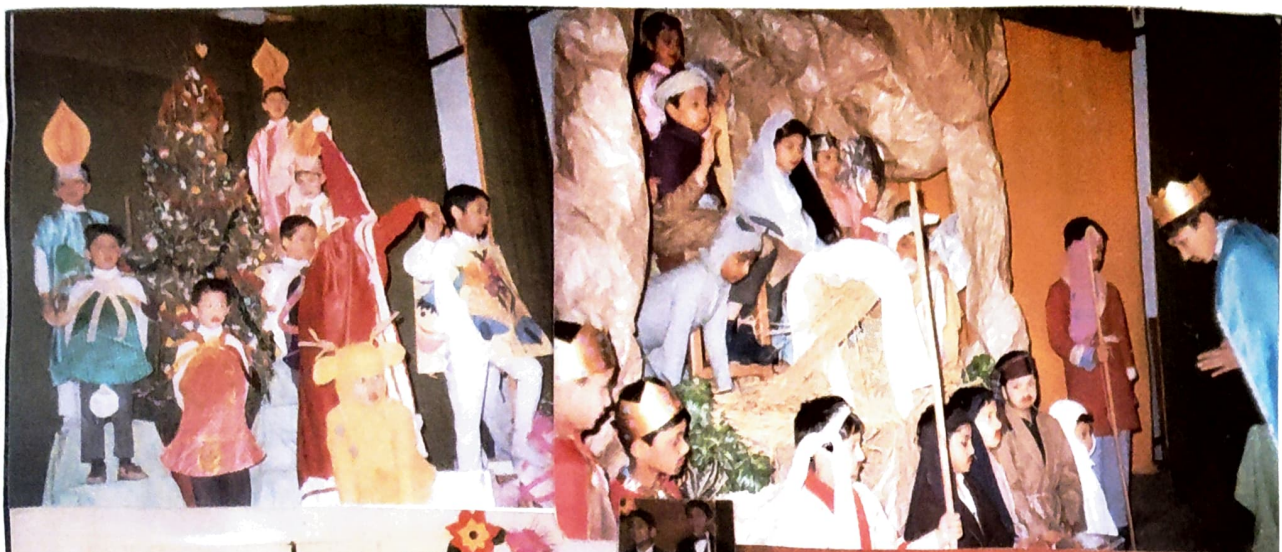

Mother! Mother! Mother!
You are more beautiful than a feather.
I like you more than gold.
As you are very bold.
I truly miss
Your sweet kiss.
I often sit on a chair
And remember your beautiful hair.
Please do come
My sweet Mum.

When I Was A Baby

When I was a small boy,
My favourite actress was Reena Roy.
My age then was just one,
I used to pull cheeks
And had fun.
At first I loved creeping,
And half the time I kept weeping.
I used to suck my thumb
And I ate fruits as red as plum.
In those days, I only used to play
And all the time was gay.
Now these days have ended
And all the broken hearts
have been mended.

The Fisherman And The Genie.

There once was a fisherman and he was very poor. One day he got up very early and he started roaming in his house. One thing he noticed was that there was no food in the kitchen and the money box was empty. Seeing this he began to worry.

He at once pulled his fishing rod and decided to go for fishing, hoping to catch a dozen fish or so. He at once threw the fishing rod into the sea, in a moment felt he had caught a fish but when he pulled it up it was only a torn pair of shoes. He tried again and this time a bottle filled with dust came up.

The fisherman looked puzzled, so he decided to open it up and find the secret behind it. As soon as he opened it he saw smoke coming up. After a few moments it appeared completely, it was a genie. The fisherman looked a bit frightened. Then the genie spoke, "I had promised that the person who takes me out of this will get a magic shell". Saying this the genie disappeared.

The fisherman walked home puzzled. When he reached home he felt hungry. At once he ordered the shell to get him the richest food which is eaten by lords and ladies.

Soon the news spread in the neighbourhood very fast, so everyone came to his house to watch such a wonder.

One of the jealous neighbours managed to change the magic shell for an ordinary one. At night the fisherman ordered the shell to get his dinner but nothing happened, this made him very sad.

Next morning he again went to the sea and called the genie at once. The genie appeared, the fisherman and broke the ordinary shell with anger, the genie then spoke, "My friend this is an ordinary shell, the real shell is with one of your neighbours. My friend this time you take my magic stick." The genie then disappeared.

The fisherman walked happily home. The jealous neighbour even changed the magic stick with an ordinary one.

The next morning he saw his neighbour coming to him, his leg had broken and his hand was fractured, this was done by the stick. His neighbour told him the whole story and he gave him the stick and the magic shell. The fisherman felt pity on him and ordered the stick to make him well. He then went to the sea and returned the stick to the genie.

He lived happily ever after.

Wild Life of Mussoorie

Though Mussoorie is a very crowded hill station you will be surprised to know that there is quite a lot of wild life here.

A flying squirrel lives on our roof. It makes quite a lot of noise at night, hopping about on the tin roof and calling loudly. It then glides off to the trees below.

I know there are many porcupines around Mussoorie because on several of our walks I have found porcupine quills. Wild fowl and pheasants are commonly seen. On Benog Hill there are wild goats called ghurals. Benog Hill has been declared a Wild Goat Sanctuary.

My parents have seen a barking deer. And what more, my mother saw a huge, big leopard striding across the road at Chunakhala. I have not seen a leopard but I have found its dropping near Jaberkheth. The dropping was full of short hair and a small bone. We took it to the Zoological Survey and they told us that the leopard had eaten a ghural.

Jackals trample our flower beds and poke about in our dustbins at night. A wild cat was found in our drain. At first everybody thought it was a leopard cub, but then the Forest Department people told us that it was a civit.

Monkeys like rhesus, macaques and langurs come around all the time. They eat up birds, eggs and chicks, and cause a lot of damage to our fruit trees. We have also seen many snakes here but in all cases they have been rat snakes. One was found under our bed. Our gardener always likes to kill them but I always tell him that they are not harmful.

I have seen pine martins, one near Jaberkheth, another near Kolukhet and very recently one just below our house. It was a slinky creature which I'll never forget. I've seen a monitor lizard near Kolukhet. It was crossing the road slowly.

A Treasure Hunt

During the winter holidays my family and myself went for a picnic. We went to a place near a waterfall. We spent some hours playing and enjoying ourselves, then we went to the waterfall. After sometime we saw a paper in a corner. We picked it up - it was a treasure map! We followed the clues given in it and reached a cave behind the waterfall. We found the treasure. We took some of the treasure and some we left behind. We gave the treasure to the Government. We were happy and excited.

परीक्षा

हाय ! परीक्षा आई,
अब क्या होगा रे भाई ।
खेल-कूद मे दिन बीता,
सो-सोकर राते गँवाई ।
हाय ! परीक्षा आई,
अब क्या होगा रे भाई ।

है यह कैसी चुड़ैल
हर बार आ जाती है ।
दिनो का चैन और रातों की
नींद हमसे चुरा ले जाती है ।
सच पूछो तो बच्चो को
कच्चा ही चबा जाती है ।

है नहीं क्या ऐसा कोई वीर,
जो इस चुड़ैल को मार सके
हम जैसे बच्चों को इस से बचा सके ।
हाय ! परीक्षा आई,
अब क्या होगा रे भाई ।

छुटी का एक दिन

हमारी छुटियाँ 21st नवम्बर को शुरू हुई थी। मैं एक दिन क्रिकेट मैच देखने के लिए गया था। मेरी बहन और भाइयों मेरे साथ गए थे। यह मैच चण्डीगढ़ में हुआ था। टिकटे लगभग पाँच रुपये की थी। जब मैं गया था कम से कम पचास हजार लोग मैच देखने के लिए आए थे। मैच भारत और इंग्लैंड के बीच था। मुझे देखने में मजा आ रहा था। मैं बड़ा होकर क्रिकेटर बनना चाहता हूँ। मेरे भाई आधा मैच देखकर घर चले गए थे। मैंने पूरा मैच देखा था। उस मैच में भारत इंग्लैंड से ६५ रन और नौ विकेटों से जीत गया था। मैं बहुत खुश हो उठा। क्योंकि हमारा देश भारत मैच जीत गया था। नवजोत सिद्धू को मैन ऑफ द मैच का पुरस्कार दिया गया था। हमें बड़ा मजा आया था। हम घर फिर वापस लौटे।

वर्षा ऋतु

भारत वर्ष भिन्न-भिन्न ऋतुओं का देश है। यहाँ प्रमुख चार ऋतुएँ हैं। जिनमें से एक वर्षा ऋतु है। यह सारी ऋतुओं की रानी है। यह जुलाई महीने से आरम्भ होकर अगस्त महीने तक रहती है। इस ऋतु में सारी तरफ हरियाली छाई रहती है। वृक्षों पर रंग बिरंगे फूल खिल उठते हैं। पेड़ पौधे झूम उठते हैं। खेतों में फसले लहरा उठती हैं। किसान खुशी से झूम उठते हैं। लोगो को गर्मी से राहत मिलती है।

पक्षी खुशी से चह-चहा उठते हैं। पक्षियों के राजा, मोर को वर्षा ऋतु बहुत भाती है। वह खुशी की तरंग में नाच उठता है। जिससे जंगल में मंगल हो जाता है। मानवजाती में वर्षा ऋतु का बहुत महत्व है। इसके आरम्भ होते ही लोगो में प्रसन्नता की लहर दौड़ जाती है। इस में लोग घरों में तरह-तरह के पकवान बनाते हैं जिन्हें वे बड़े चाव से खाते हैं। कभी कभी अधिक वर्षा के कारण बाढ़ आ जाती है।

इस ऋतु का लोग बेसबरी से इन्तजार करते हैं।
