

CYNTHIA SENIOR SECONDARY SCHOOL

Summer Holiday Homework

Class- 5

Activity -1

1. The Water Cycle Experiment: Create an observation bag by drawing the sun, clouds, and trees on a transparent zip-lock bag. Fill one-third with blue-dyed water, seal it tightly and tape it to a sunny window. Record the condensation and evaporation changes over a few hours.

2. Food Spoilage: Ask your parents or grandparents about traditional food preservation techniques. Write down how items like pickles, papads, or sun-dried vegetables are protected from microbes. (In *rough* notebook)

Activity -2

संज्ञा के प्रकारों को चित्र द्वारा दर्शाइए।

Do in A4 size paper or Chart paper.

Activity -3

Draw different types of angles with their name and paste them on cardboard.

Note: use matchstick and cover the cardboard by plain (blank) white paper.
