माँ

Vandana Raghuvanshi
Teacher

मां तू सब कुछ है.....तुमने यह जीवन दिया..

अपने गर्भ में स्थान दिया....

अपने संस्कारों से सिंचित किया.....

हां मां तू सब कुछ है ।

कितना अद्भुत है यह चरित्र.....निश्चल सा है,

अविरल सा है, मां का ऐसा विश्मय चरित्र.....

कभी डांटे वो.....कभी फटकारे....

कभी प्यार में आकर पुचकारे.....

चाहे डांटे वो या फटकारे.....

पर दे दे वो अंबर तारे.....

क्या कीमत है उस भोजन की.....

जिसे मां के हाथ ने स्पर्श किया.....

उस भोजन की तासीर ही है.....

जिसने सारा दुख दूर किया.....

दी खुली हवा.... ताज़ा भोजन....

और गर्भ में अपने स्थान दिया.....

यह शरीर भी कितना धन्य हुआ.....

जब मां की कोख में स्पंदन हुआ.....

हर बार वो चाहे दे देना.....

हर बार ही चाहे दे देना.....

बस मांग रही, बस प्यार ही वो.....

उसे दे देना, उसे दे देना है.....

है मां ही तुम्हारी प्रथम गुरु.....

अभिमन्यु जग में साक्षी है.....

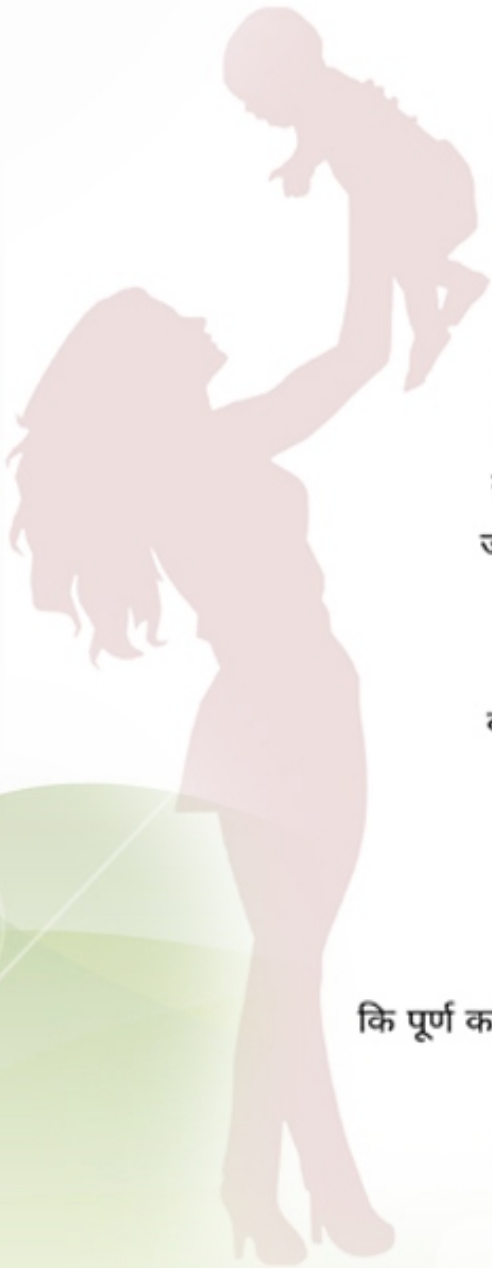

वह चाह हमेशा रखती हैं.....

कि पूर्ण करूं मैं संतति को अपने सिंचित संस्कारों से.....

और यह भी अटल है.....

कि जो जान गया, वो पार गया.....

जो मान गया, वो पार गया....

REALISATION

The ocean above me was filled with stars
All I could do was just compare it to my scars
Then I found a fact,
Both weighed the exact
The tears roared
And suddenly the twinkling slowed
There the moon arrived
Reminding me my reason to shine
My heart stopped for a while
Seeing the nature making me smile
Then was the time I realised
Not humans but I had someone by my side

Himanshi Jain
Teacher

AMAZING FACTS

- Mount Everest weighs an estimated 357 trillion pounds.
- A year isn't exactly 365 days -- it's 365.2564 days! That's why we have a leap year every four years
- People tend to have about 100,000 hair on their head, and you can lose around 50 to 100 hair every day.
- Back in a jiffy? You'd better be fast! A “jiffy” is an actual length of time, equal to about 1/100th of a second.
- Every odd number has an “e” in it.

MY BEAUTIFUL MOTHER

Early as the sun she gets up,
Spreading her love and warmth wherever she goes,
With so much love and compassion she holds,
And care and caution she tolls,
She bubbles up with joy at my every victory,
Scolds me, with a hint of sadness at my blunders,
With a heart so big she takes care of me,
And guides me on all my ventures,
In her I see a friend,
Who laughs at my jokes,
And cries with me when I feel low,
Who guides me when I go astray,
And protects me from every peril,
With her everything seems right,
Every problem seems resolvable,
My friend, my guide, my world,
My beautiful mother.

Kumari Janawi
Class XI C

CHILD LABOUR

Childhood is the most memorable time of life . It's the period of relishing& cherishing every moment. But unfortunately , this is not the case for over 150 million children worldwide as they are forced to participate in manual labour which is detrimental to their well being.

Child labour can be defined as practice of employing children at regular and sustained exertion that limits as well as damages their physical , emotional, intellectual, social and spiritual growth.

Poverty is considered to be one of the main reasons for this malignant practice. It puts strain in financial situation which compels poor kids to act as source of income for their families from a young age. Other reasons include inadequate education, overpopulation, parental illiteracy and so on.

Children are the future of a country and a gift of God. They deserve to be nurtured with care and affection. However, despite running many awareness campaigns by welfare societies and the government, most kids below poverty line are forced to do child labour everyday. So, being a responsible human, we should oppose child labour and encourage others to do the same. Population control and Education will certainly bring a good change in this direction.

" There is no reason, there is no excuse, Child labour is Child abuse "

At last, this practice is a curse to humanity and takes the lives of millions of innocent children. It needs our undivided attention to change lives of those who are miserably stuck in a vicious cycle that is never ending .

THE INTERNET WAS CREATED TO BRING A CHANGE

Maisarah Ahmed
Class XI B

The Internet- as we see it today was not created out of nowhere. This ideology or rather revolution was brought up for a purpose. This purpose was not for one or two but millions of people around the world. While the Internet was invented mainly for beneficial purposes, recent studies and cases have shown the uprising surge in cyberbullying, spamming, phishing etc. to name a few of the alarming issues. While the security risks are at one side, the health risks are at another. The aim was to bring up something the world has never witnessed before. A tool acting as an aid to every individual irrespective of his or her profession and this initiative was taken up by an individual none other than Mr Sundar Pichai. We often talk about the ill effects of internet but forget to mention the innumerable positive effects it has brought among millions. The ways it has helped individuals to connect with one another, to research, study and do numerous activities without facing any hurdles.

NUTRITION

As we all know the effective management of food intake and nutrition are both key to good health. Smart nutrition and food choices can help prevent diseases. Food and nutrition are the way we get fuel, providing energy to our bodies. Fats, Proteins and Carbohydrates all are required. Maintaining key vitamins and minerals are also important to maintain good health. Understanding good nutrients and paying attention to what you eat can help you maintain and improve your health. Water too is an important component of nutrition as it is required in amount that exceeds the body's ability to produce it. All biochemical reactions occur in water. It fills the space in and between cells and helps form structure of large molecules such as Protein and Glycogen.

LATA MANGESHKAR

Lata Mangeshkar, The Queen of Melody, Nightingale of India, was the most versatile playback singer of India. She sang over 5000 songs in hindi and other regional languages in her 8 decade long career. She was honoured with Dada Saheb Phalke Award, Bharat Ratna and various filmfare awards. She was considered as Goddess Saraswati. She left the world for her heavenly abode but she will always be among us with her beautiful songs.
