### **DPS Mohali Hosts NCF Training to Empower Teachers**

Delhi Public School, Mohali hosted a one-day teacher training programme on the National Curriculum Framework (NCF) for the teachers of DPS Mohali and DPS Chandigarh on Saturday, 7 February 2026.

The training was conducted by CBSE-appointed resource persons—Ms. Seema Wadhwa, Principal, Skonis World School, and Ms. Sagrika Bakshi, Education Freelancer. The sessions focused on understanding the vision and core principles of NCF, with emphasis on learner-centric pedagogy, competency-based education, experiential learning, inclusive classrooms, and assessment reforms.

Ms. Seema Wadhwa highlighted the evolving role of teachers as facilitators of meaningful learning, stressing conceptual understanding, critical thinking, and values-based education. Ms. Sagrika Bakshi shared practical classroom strategies, including activity-based and inquiry-driven learning, interdisciplinary lesson planning, and effective integration of technology.

The workshop was interactive and hands-on, involving group discussions, reflective activities, and lesson design tasks, enabling teachers to translate NCF guidelines into practical, classroom-ready practices. The programme reinforced DPS Mohali's commitment to continuous professional development and future-ready education.
