Skill Saturday: Fostering Creativity and Curiosity at Delhi Public School, Mohali

Delhi Public School, Mohali recently hosted an engaging Skill Saturday event, where students embarked on a journey of discovery and creativity. The event featured a diverse range of activities designed to nurture students' skills and spark their curiosity.

Students showcased their artistic talents through stone painting, bringing vibrant colours and creativity to the forefront. Additionally, students explored culinary skills through a "cooking without fire" session and honed their writing skills in a creative writing workshop. A special maths session, led by a special resource person, helped students apply mathematical concepts in a fun and engaging way. Another highlight was the AI and robotics workshop, also led by a special resource person, which introduced students to cutting-edge technology and its applications. The science corner was abuzz with excitement as students conducted fascinating experiments, exploring scientific concepts and principles. Interactive games and activities further enhanced their problem-solving skills and teamwork.

The event also included captivating science-based storytelling sessions, which encouraged students to think creatively and develop their critical thinking skills. These activities provided a platform for students to ask questions, seek answers, and explore the wonders of science.

Skill Saturday demonstrated the school's commitment to providing a well-rounded education that fosters creativity, curiosity, and critical thinking. By engaging in hands-on activities and experiments, students developed essential skills that will benefit them throughout their academic journey and beyond.

The event concluded with students eagerly looking forward to future Skill Saturdays, where they can continue to learn, grow, and explore new interests.
