## Message From The Founder

**Mrs. Manjeet Kaur**  
(Founder)

She is a great visionary philanthropist as well as renowned educationist of the region. She wants learners to be passionate for innovation.

"There are no secrets to success, It is the result of preparation, hard work, and learning from failure."  
The Indian Society is steadily passing through transformation and modernisation from traditionally closed society. We have moved towards the modern and egalitarian one. So, the responsibility sets on all the stakeholders in the world of education to make the society capable of accentuating itself with the challenges and become lucid and conscientious human beings.  
We believe in our aim to develop scholarly students with great self discipline, interim perseverance and zeal to meet the challenges of the modern society.  
It is time to go beyond the STEM subjects and provide children an equally exciting place to explore their talents and skills. Joy of learning intrinsically motivates children to persevere and hence find success in all they do.  
So, today in this school of future educationists, entrepreneurs and professionals, I feel pride in making the future generation who question every choice they make. I extend my good wishes to the Principal and staff and all other helping hands of the institution for their unwavering support to groom the young talents and for giving their best in the field of education.
