## HOLIDAY HOMEWORK – CHEMISTRY (CLASS VI)

1. Learn the names and symbols of elements given on Page 24 and 25 of your textbook.

### 2. Scrapbook Activity

Prepare a neat and creative scrapbook on the topic:  
“Chemical Apparatus Used in Laboratory”

#### Instructions:

Take a scrapbook or A4 sheets and compile them neatly.

On the cover page, write:

- Your Name
- Class & Section
- Subject (Chemistry)
- Title: Chemical Apparatus and Their Functions
- Decorate the cover creatively

Inside the scrapbook:

- Paste or draw different chemical apparatus (e.g., beaker, test tube, flask, funnel, etc.)
- For each apparatus, write:
  - \* Name of the apparatus
  - \* Its function/use (in 1–2 lines)

Include at least 6–8 apparatus.

#### Presentation Guidelines:

Keep your work neat and well-labelled

Use colours and diagrams

Maintain proper headings

No printouts should be used

You may refer to the chemical apparatus mentioned in your textbooks
