

Loreto Convent Intermediate College

Lucknow

Chemistry Class 7 – (2026-2027) HOLIDAY HOMEWORK

1. Project

Exploring Changes: Physical and Chemical Changes in Everyday Life

Guidelines for Students:

- Observe changes (any 10) happening around you (eg-melting ice, rusting iron, burning paper, etc.)
 - Classify each change as physical or chemical with proper reasons.
 - Perform at least one simple activity or experiment of each category.
 - Record observations in a table (Change – Type – Reason – Reversible/Irreversible)
 - Draw diagrams or paste pictures wherever possible. The project should not exceed 5 sheets. you may use loose register sheets.
- Write a short conclusion.

2. Do the worksheet given on page number 134 "Basic Chemistry" of the text book in the fair register neatly.

3. Learn and revise the topics discussed in the class.
