

Loreto Convent Intermediate College

Lucknow

SUMMER HOLIDAY HOMEWORK (2025-26)

CLASS – VIII

SUBJECT: BIOLOGY

- Project to be done in interleaf sheets.

Topic: Collection and Study of Flowers

Instructions:

Collect 5–7 different flowers (real, dried, or printed photos if real flowers are not available).

Paste them on the plain side of interleaf punch sheets .

For each flower, write:

Name of the flower

Description of:

Sepals

Petals

Stamens

Pistil

Type of pollination: Self or Cross

(Optional: You can also add a small diagram if you like.)

Sample Entry:

1. Flower Name: Hibiscus

Sepals: Green, 5 in number, form the calyx.

Petals: Bright red, large, 5 petals, attractive.

Stamens: Numerous, fused into a tube around the style.

Pistil: Single pistil, with 5 stigma lobes.

Pollination Type: Cross-pollination (by insects like bees).
