HOLIDAY HOMEWORK ECONOMIC APPLICATIONS CLASS IX SESSION 2025- 2026

PROJECT I

Consumer Awareness in India

The project should cover the following topics:

- Consumer exploitation, forms of exploitation, reasons for consumer's exploitation.
- Consumer Education
- Consumer Rights
- Consumer Protection Act, 1986: its provisions
- Steps taken by the government towards consumer protection and consumer awareness.
- Explain in detail the initiative of the Government of India “Jaago Grahak Jaago”
- Duties of a consumer

PROJECT II

"The Bhopal Gas Tragedy: Economic Impact and Lessons in Industrial Safety"

Project Guidelines and Content Structure:

This project aims to help students understand the Bhopal Gas Tragedy from an economic perspective, while also touching upon related social and environmental issues.

1. Introduction

- What is the Bhopal Gas Tragedy? (Brief summary of the incident)
- When and where it happened.
- Importance of studying it in Economics.

2. Causes of the Tragedy

- Basic idea of the Union Carbide factory and what it produced.
- How the gas leak happened.
- Role of safety measures and management failure.

3. Economic Impact

- On families: loss of breadwinners, reduced income, medical expenses.
- On the local economy: decline in employment, closure of businesses, migration.
- On the government: relief packages, medical aid, compensation costs.

4. Social and Environmental Impact (briefly)

- Health effects on people.
- Long-term pollution of land and water.
- Impact on living conditions and future generations.

5. Legal and Government Response

- Compensation and rehabilitation efforts.
- Laws introduced after the tragedy (like the Environmental Protection Act, 1986).

6. Lessons Learned

- Importance of industrial safety.

7. Conclusion

- What can be done to prevent such disasters?
- Why it is important to balance industrial growth with safety and environmental care.

NOTE: Each project shall have:
