

Dear Parents,

As you are aware, all our schools have participated in the plantation drive since 2016 and due to your active support and partnership we have been able to achieve our target of planting 1 lakh saplings by 2020. We would like to continue in our noble campaign and solicit your kind cooperation in our initiative.

We request all our parents once again to join hands with us in our plantation drive and plant a few saplings as per the availability of the space in your homes or gardens. Do encourage and motivate your wards to grow vegetables and medicinal plants at home, if not saplings, and plant a few seeds in flowerpots in your balcony or terrace.

Please send us a photograph and a short video of your ward as s/he engages with the task and post it to their school JPIC, link.

Students are required to participate in school uniform, and at the start of the video the students should introduce themselves and mention their Name, Class, Name of the School and say a few words about the initiative.

While planting, we request you to kindly ensure that all are wearing masks and taking other necessary precautions as responsible citizens.

We thank you for your support and involvement in all our activities.

May God bless and keep you and your families safe and healthy.

Yours sincerely,

LORETO JPIC TEAM, INDIA
