

LITTLE FLOWER CONVENT SCHOOL

VILL. MANGWAL – PATIALA ROAD – DISTT. SANGRUR – PUNJAB. 148001

Dear Teachers, Parents and Students,

We're getting ready to celebrate Environment Day on June 5th! As part of our efforts to promote sustainability, we encourage you to take a small step towards environmental conservation by planting saplings in your homes and neighborhoods.

This year, the theme is "Ending Plastic Pollution Globally," and we aim to create a plastic-free Earth. Let's raise awareness about this critical issue through our actions. You can:

- Plant trees**
- Create speeches or poems about environmental conservation**
- Share your experiences and tips on reducing plastic use**

Please send photos or videos of your initiatives to your respective class teachers. We'll feature them on our school's social media platforms to inspire others.

Thank you for your cooperation and enthusiasm. Let's work together to make a difference!

Looking forward to seeing your creative efforts!

Regards

Little Flower Convent School, Sangrur
