July 18, 2021

Dear Parents,

Hope children have enjoyed a much-needed short summer break.

The COVID-19 outbreak has led to the closure of schools for the second consecutive academic year, which has undoubtedly obstructed the learning of the students. This massive closure presents a daunting challenge for the school, students and the parents. The school is leaving no stone unturned, to make this time a productive and happy one for our students.

You should be proud of your school to be the first one, going online as soon as schools were forced to close last year in 2020. Now at this point in time, we would seek your cooperation to provide fruitful academic experiences for our children through **online teaching**.

With so much free time, keeping children on a routine is important. **We are working**

hard to engage students through online classes, digital learning, art and craft, quiz, writing skills, yoga workshops and other school activities. We solicit your support, and request you to **make all necessary arrangements at home**, so that children can attend the online sessions with ease. The learning can happen only if you take up a

supportive role and spend little time with your ward to ensure that he attends all the classes without fail, submits his assignments, projects and other work on time and follows teachers' instructions carefully.

We are still not sure when the regular classes will resume, we have new challenges to face, so we request you to be a part of this new age learning and support us whole heartedly.

Furthermore, we believe children can gain a set of skill from you, others in the family and from the digital medium that they weren't going to learn in school.

Please stay home to help contain the spread of the novel coronavirus, follow all COVID norms, and be safe!

Regards

Principal

Online Classes start again from 19/07/2021
