SESSION: 2026-27

HOLIDAYS HOMEWORK

Great Minds Don't Rest, They Have Fun Learning All Year Long.

Dear Learners,

Summer vacation is here! A time to unwind, recharge, and create unforgettable memories with family and friends. Whether you're planning a relaxing getaway, an adventurous escapade, or simply enjoying lazy days at home, make the most of your break and have a blast! May these holidays bring you joy, laughter, and cherished moments with family and friends. We look forward to seeing your amazing work and welcoming you back to school refreshed and rejuvenated!

Explore new hobbies and
interests

Spend quality time with loved
ones

EXPAND YOUR HORIZONS

Stay curious and keep learning

Read books that spark your
imagination

Wishing you a fantastic summer vacation!**Let's be the change we want to see in the world!**

6 CLEAN WATER AND SANITATION

Dear Students,

"Water is Life's Mater and Matrix, Mother and Medium. There is No Life Without Water."

This holiday homework is designed to help you connect **SDG Goal 6: Clean Water and Sanitation** with your core academic subjects. Water is a precious shared resource, and understanding its conservation, distribution, and value helps us build a sustainable future.

You are encouraged to use your own creativity, imagination, drawings, charts, poems, slogans, surveys, and hands-on research. Try to correlate the theme of water conservation and cleanliness with each subject in an interesting, exploratory, and meaningful way. Your work should reflect originality, neatness, and deep understanding.

Important Instructions:

- Prepare all the work neatly on **A4 sheets** and compile it in a beautifully decorated **folder**.
- Ensure the SDG 6 theme is clearly correlated and visually highlighted in every subject's project.
- Students will confidently present their complete holiday project in class after the school reopens.
- The project and its interactive presentation will be formally assessed on:
 - Creativity & Original Ideas
 - Subject Correlation & Depth of Understanding
 - Presentation & Communication Skills
 - Neatness & Organization

Activity: English Activity

Comic Strip Activity

Activity Title:

"The Last Drop"

OR

"Mission: Save Water!"

Activity Instructions

Create a colourful comic strip showing the importance of clean water and sanitation.

Your comic should tell a short story with characters, speech bubbles, and a meaningful message about:

- Saving water
- Avoiding water pollution
- Maintaining cleanliness
- Proper sanitation habits

Science Activity: "The Smart Water Filtration Blueprint"

- **Creative Design:** Draw a detailed, neat diagram of a 3-tier natural water filtration system (using sand, charcoal, and pebbles) on an A4 sheet. Label each filtration layer carefully.
- **Scientific Investigation:**
 1. Research and list the 3 main sources of water pollution in urban cities.
 2. Explain the scientific role played by activated charcoal/carbon in basic water purification.
- **Personal Commitment Tracker:**
 - Write down 3 current household habits that contribute to water wastage.
 - Formulate 3 actionable habits you will adopt immediately to achieve optimal water conservation.

Example:

"I will switch to using a bucket instead of a hose to clean the balcony, saving up to 50 liters of water every week."

- **Note:** Learn and revise all the syllabus covered in class so far.

Social Science Activity: "Guardians of the Blue Gold"

- **Historical & Traditional Exploration:** Paste or draw clear pictures of India's traditional water harvesting systems (such as *Baolis/Stepwells*, *Taankas*, or *Johads*).
- **Community Helpers Analysis:** Write 4-5 meaningful sentences detailing the critical contributions made by the following community professionals to ensure community health:
 - **Plumbers & Water Line Technicians:** Repairing leaks and maintaining clean distribution networks.
 - **Sewage Treatment Workers:** Safely managing waste to keep public water bodies unpolluted.
 - **Local Environmental Activists:** Organizing local lake or river cleanup drives.

Example:

"Traditional Baolis were not just structures but community centers that collected rainwater, showing how ancient India respected water security."

- **Note:** Learn and revise all the syllabus covered in class so far.

Hindi Activity

आपका कार्य:

एक आकर्षक विज्ञापन पोस्टर तैयार कीजिए, जिसमें यह दिखाया जाए कि पानी बचाने में लापरवाही के कारण वर्ष **2050** में पानी बेचा जा रहा है।

पोस्टर में शामिल करें:

- आकर्षक नारा (**Slogan/Tagline**)
- पानी के ब्रांड का रचनात्मक नाम
- वर्ष **2050** में पानी की कीमत
- चित्र एवं रंगीन सजावट
- जल संरक्षण से जुड़ा चेतावनी संदेश
- पानी बचाने के लिए प्रेरित करने वाला छोटा विज्ञापन अनुच्छेद

संकेत (**Hint Ideas**):

- “शुद्ध पानी – ₹500 प्रति लीटर!”

- सड़कों पर वाटर एटीएम
- पानी की लगज़री दुकानें
- पानी के लिए लंबी कतारें
- सूखी नदियाँ और खाली नल

Mathematics Activity: "The Household Water Audit Survey"

- **Data Collection:** Collect empirical data from at least **5 family members or neighbours** tracking the following metrics over a weekend:
 - Approximate number of glasses of water consumed daily (1 glass = 250ml).
 - Average duration (in minutes) of running water during morning routines (brushing/bathing).

Art and craft Holidays Homework

1. String Art on (page 8)
2. Thumb Impression on (page 12)
3. Leaf Painting on (page 24)
4. Glowing Outling on (page 26)
5. Blow Painting on (page 30)

Make a neat and creative poster on the topic SDG 6 – Clean Water and Sanitation on one A3 size sheet.

- * Include a slogan or short message related to saving water and hygiene.

Physical Education Holiday Homework

Students are required to complete the following work in their Physical Education interleaf notebook:

1. Write and draw five standing yoga postures along with their names and three benefits of each posture.
2. Write and draw five sitting yoga postures along with their pictures, names, and three benefits of each posture.

Computer Holiday Homework

- Make an attractive PowerPoint presentation or collage in Word based on SDG-6 (Sustainable Development Goal 6) i.e. “Clean Water and Sanitation”.
- Task: Search the pictures from Google typing few lines on “Clean Water and Sanitation” and try to realign and arrange them on every slide or page in a creative way. You can use Photos app to crop, flip and rotate any photo as demonstrated and completed in the lab activity.
- Read and Revise Ch-1.

• **Note:** Learn and revise all the syllabus covered in class so far.

"Small water-saving habits today ensure a flowing, sustainable tomorrow."

HAPPY HOLIDAYS!
