PRINCIPAL'S DESK

Dear Students, Parents and Teachers,

The next magazine of our school, 'Morning Star' comes to you after a gap of almost a year. I sincerely express my regret and hope the next volume of the school news magazine could be in time.

The recent bus tragedy at Mahendergarh, where six students died and 21 got injured has left all of us in a shock. We deeply condole the deaths of innocent children and offer our sincerest heartfelt condolences to their grieving families. This unfortunate incident has alarmed all of us and we have our big responsibility for the safety of each child in our school. The school has 'Safety Committee' which holds its meetings routinely to monitor the day today situation in the school with regard to the safe atmosphere. The members of the Committee keep watch on children so that there are no physical hazards for them. Similarly, the Committee ensures safety of children from abuses and bullying. The School Safety Committee organizes fire drills, mock drills, health and hygiene workshops for students to be vigilant and not to panic in any circumstances, rather to be well composed and act wisely.

I request the parents to approach our school counsellor and special educator if your child needs any kind of guidance and counselling. We have experienced and well qualified Counsellor as well as Special Educator who are available for students to guide and help them in addressing their problems.

As per the orders of the Traffic Police (Motor Vehicle Act 4/181 and 5/180), kindly ensure that the vehicle hired for transportation of your ward is registered for commercial purpose. Also ensure that the vehicle is safe and police verification of the driver is done. Similarly, as per the orders of Gurugram Police, underage driving is strictly prohibited, so any information received by the institution related to the violation of this rule will be informed to the police.

The school is buzzing with lots of activities both scholastic as well as co-scholastic. The main purpose of conducting multiple activities is to enable our students to equip themselves with the latest technological knowledge and help them to prepare themselves for the challenges to come. We can be rest assured that every step taken in the school for the all-round development of children will bear much fruit in the years to come.

We have already begun the academic year 2024-25 on a high note and with full cooperation of our parents, teachers and student. It's an opportunity for them to build confidence in expressing their thoughts and ideas. "Speak to Lead" is a forum for students to engage in public speaking in a friendly and supportive environment. It encourages them to share their perspectives, listen actively, and develop their oratory skills. These activities not only stimulate creativity and curiosity but also encourage collaboration, communication, and self-expression. Our students look forward to Fridays as a day of exploration, discovery, and, most importantly, having fun while learning.
