NOTICE

Class VI – Third Language (R3) Implementation

Dear Parents of Class 6 Students,

In accordance with the recent CBSE notification regarding the three-language formula, the school management has decided to offer Sanskrit as the third language (R3) for all students.

This decision has been taken after careful consideration of all available options, keeping in mind the availability of personnel, as well as logistical and infrastructural requirements, to ensure smooth and effective implementation.

We are also mindful that this notification has been issued at a later stage, and that several students had opted for German or Spanish prior to the commencement of the academic session. In view of this, parents who would like their ward to continue studying German or Spanish as a fourth language are requested to share their opinion and provide consent through the Google Form: <https://forms.gle/dqq3khA7ZtThgfTx5> (Complete by 21st April).

Please note that the school will review all responses and determine the feasibility of offering these foreign languages based on the number of students opting for them and the resources available. Kindly complete the Google Form by 20th April 2026. Non-submission will automatically be considered as a lack of interest in the additional foreign language.

We appreciate your understanding and cooperation.

Kind regards,

Br. Robert Fernandes
