"Learn, Achieve, Inspire"

April - August Edition

'The spark of learning shines brighter with every question we ask.'

From the Principal's Desk

As we step into a new academic session, we are filled with a sense of renewal, fresh goals, and endless possibilities. Each year offers us an opportunity not only to grow academically but also to shape the kind of individuals we aspire to become.

At our school, while we continue to focus on academic excellence, we firmly believe that true education goes beyond textbooks and examinations. It lies in nurturing values that help children become compassionate, responsible, and thoughtful human beings.

This year, we place a special emphasis on empathy and kindness—qualities that are simple in thought yet powerful in impact. In a world that is constantly evolving, the ability to understand another's feelings, to be patient, to extend a helping hand, and to choose kindness in daily actions is what truly sets individuals apart.

We encourage our students to practice empathy in their daily interactions—with peers, teachers, support staff, and family members. A kind word, a small gesture of support, or even the willingness to listen can create a positive ripple effect that reaches far beyond the classroom.

Let us also remember that discipline, respect, and responsibility go hand in hand with these values. When children feel safe, valued, and understood, they naturally become more confident learners and better contributors to society.

As educators and parents, our role is to guide children not only towards success but also towards sensitivity and awareness. Together, let us strive to create an environment where every child feels seen, heard, and appreciated.

I look forward to meaningful learning, mutual respect, and countless moments of growth.

Warm regards,
Ms Supal Gandhi
Principal

From the Academic Director

The new academic session has begun, and our institution is committed to fostering the overall development of students through a strong educational framework with the support of parents. Education goes beyond acquiring knowledge; it includes developing skills, values, and character. In line with the National Curriculum Framework (NCF), our school emphasizes holistic growth through experiential learning. We focus on nurturing abilities such as writing, presentation, public speaking, arts, sports, and time management. These skills are strengthened through House Activities and inter-school competitions like debates, quizzes, and stage performance. Such platforms also promote teamwork and collaboration. At SIS, we prioritize physical health, mental well-being, and emotional stability to help students face global challenges confidently.

"Learning gives creativity.

Creativity leads to thinking.

Thinking provides knowledge.

Knowledge makes you great."

— Dr. A.P.J Abdul Kalam

Glimpse Within

"Take a glimpse within to explore the vibrant moments of the past three months. From exciting competitions and meaningful celebrations to students showcasing their talents, every page reflects enthusiasm, creativity, and learning in action. This edition beautifully captures the spirit of participation, teamwork, and holistic development. It is a reflection of the joyful journey we continue to share as a school community."

Daily Reminder

"Be kind—it costs nothing but means everything."

Wellness Tips

"Eat balanced meals to fuel your body."

Edition's Highlights

- Campus Currents
- Winning Moves
- Tapestry of Expression
- Young Minds in Action

"Creativity unleashed through colors and imagination."

Inter-House Competition (Art)

Winners

Prithvi House

YOUNG MINDS IN ACTION

Independence Day Celebration

A Glimpse of Pride, Patriotism, and the Vibrant Spirit of Freedom

Parents' Feedback

"Insights from Parents"

We have been associated with the school since its early days.

Over the years, both our children have studied here, and Mrs. Gandhi's strong leadership is evident in every aspect of the school's functioning. The institution reflects a clear vision, discipline, and genuine care. Its focus on not only academic achievement but also overall development truly stands out.

In an era where many schools operate like corporate setups, SIS offers a refreshing difference. It brings back the essence of traditional education, much like what we experienced in our own childhood. The school has consistently raised standards by maintaining a balance between academics and a deep emphasis on values, ethics, and the well-being of students.

We would also like to sincerely appreciate the teachers for their commitment and support. They are approachable, attentive, and truly invested in each child's progress. The favorable student-teacher ratio ensures personalized attention, allowing every student to thrive. Beyond academics, the teachers play a vital role in nurturing confidence, creativity, and strong character in students.

We are grateful to the school for creating such a nurturing environment where children feel encouraged to learn, develop, and flourish with confidence. Your dedication and passion make a meaningful impact, and we feel proud and reassured knowing that our children are in such capable hands.

Regards,
Parents of
Manit Rawat (Class VII)
Saanvi Rawat (Class V)

Moments of Discovery

"Capturing the Science behind innovation."

Time is an asset

Time is one of the most valuable assets we possess because, unlike money or material things, it can never be regained once it is lost. Every moment gives us an opportunity to learn, grow, work towards our goals, and create meaningful memories. Successful people understand the importance of using time wisely and avoid wasting it on unnecessary distractions. Proper time management helps us balance studies, work, relationships, and leisure while reducing stress. Therefore, we should value every minute, plan our activities carefully, and make the best use of the time we have, because time once gone, never comes back.

— Srishti, Class X
