CLASS 1 HOLIDAY HOMEWORK

Dear Parents,

Summer vacation is a wonderful time for children to learn through observation, creativity, reading, conversations, and everyday experiences. At this stage, children should be encouraged to express their thoughts confidently, participate in activities independently, and enjoy learning in fun and meaningful ways.

The following are suggestive activities designed for joyful learning at home. Children are required to submit the holiday homework if they choose to do these activities. They are free to choose any one activity or more than one activity in each subject according to their interest.

Children who wish to present their work or activity in class may do so on 3rd July 2026.

Along with academics, encourage your child to:

- Spend quality time with family
- Read storybooks regularly
- Help at home and develop empathy
- Play outdoor games
- Explore hobbies and creativity

Learning becomes more meaningful when children enjoy the process.
