CHANGE

Abhay Pande - 10 B

I was flipping through the pages of the album and looking at my childhood photographs. I realized how everything had changed. Was I really that mischievous lean boy in the photograph? I looked into the mirror to find a person who was entirely different from the one in the photograph.

Change is the inevitable truth of the, Nothing in life is perpetual. Life is not overlatting, it is very uncertain. The diovers that are blooming in the garden today will die and wither tomorrow. The fragile show-piece, mother's tavourite and which note adormed the mantelpiece, has shattered into pieces. Nothing has been able to triain lies glory and position.

Change is very evident in the attitude of man as well. The place in every beenager's room, where there was once a poster of Sachtin Tendul lar, now showcases a poster of M.S. Dhonti and the very people who had idolized Sachin are now criticizing him. Our parents prevent us from doing the very things that they had done as children.

Change is the law of nature and it can never be defied. So, it is best that we accept the changes that we undergo and live life as it comes. As Tithonus said, "Why should a man desire in any way to vary from the kindly race of men."

THE PASSPORT

Ttarangg Manoj - 10 B

Harry was finding it hard to believe that he had lost the passport again, and that too at such a crucial moment. The sirens grew louder as the police drew meaner the airport. Harry had no choice. He had to get out of the country, he had to do it fast and for that he had to find the postsport.

Three years ago, while fixing Hisroof, Harry Daiwson accidentally dropped a harmer which landed or his neighbour shead; he had come to apologize for the fight that they flad got into the previous night. His neighbour died within two boars due to a serious head injury. He was charged with murder and serienced to life imprisonment.

A year later, he morraged to escape from prison and, with the help of some friends, he got a passport. However, he lost it and was arrested. This time

he was put in a more secure prison-cell but he escaped again and managed to

reach the airport. Fate, however, never seems to work without a sense of irony. Harry scambed his revisely. There was nothing there. He searched the

areas where he had been but be couldn't find anything. He ran out to check the taxi which he had taken to reach the airport. Fortunately, the taxi was still there. but it was empty Walking back into the terminal, Harry found a passnort on the floor. It

belonged to a Peter Rickman, a fat American in his 50's with a hie sear on his cheek. Harry had picked up a few passport-size photographs of himself before he left for the airport. He took the photograph and stuck it on the passport. He knew that it was not the best idea but it was still worth a try.

He walked up to the laziest looking person sitting at the counter. She was busy filing her nails. "Good morning, Madam!" he said, handing the passport to her. She stamped the passport without noticing that the picture was glued on

"Thanks!" and saying that he hurried away.

The police arrived but they were too late. Harry had escaped. In the plane, Harry looked for his seat. He found it, towards the front of the aircraft. He thought the man seated beside him seemed rather familiar

"Hello," said the man, "my name is Harry Daysson." "Hit" said Harry surprised, "I'm Peter Rickman."

A CHANGE I WOULD LIKE ... At home I would like my parents to give me a little more liberty and let me be a bit on my own. The guidance of parents is definitely important but excess of anything becomes tritating. I want my parents to stop thinking I am still a child.

sheep and follow the media shephard wherever it leads. As a result the media has frequently been used as a propaganda tool because of its ability to mould public opirion. The most infamous example of this was Hitler's Germany where the media became a Nazi propaganda machine, turning the German people into a nation of docile followers of a devilleth doctrine.

Media is dependent upon advertisement revenue, and that dependence can cloud its judgement. It seems to have no scruples about promoting advertisements of alcoholic derinks and eigeneties which are harmful to health. ANIMAL INTIMATIONS OF IMPENDING STORMS

The novelist Thomas Hardy died three quarters of a century ago. He was a country man at heart, having spent nearly all his life in the environs of his native Downhoster, and he was, therefore, familiar with the many signs that were said by countryfolk to indicate the weather's changing moods.

The rationale perceived to be behind these signs was summed up by the renowned meteorologist Richard Inwards, an exact contemporary of Thomas Hardy: "In general," Inwards wrote, "the senses of men are coarse and dull, and void of energy: they are distracted by a thousand other objects and scarcely feel the impression of the air. But animals, which retain their natural instincts, which have their organs better constituted and their senses in a more perfect state. by variations in the atmosphere, and sooner exhibit signs of them."

Hardy draws on this theme in Far from the Madding Croned. "In the sky," he tells us of one eventful autumn evening, "dashes of buoyant clouds sailing in a course at right angles to that of another stratum, neither of them in the direction of the breeze below. The same evening the sheep had trailed homeward head to tail, the rooks had been confused, and the horses had moved with timidity and courtion. Now the sheep were crowded close together, all grouped in such a way that their tails, without exception, were towards the half of the horizon from

"Gabriel Oak proceeded towards his house. In approaching the door his too kicked against something which felt soft, leathery and distended, like a boxing playe. It was a large toad, humbly travelling across the path. He know what this direct message from the Great Mother meant."

Soon Gabriel saw another sign: "When he struck a light indoors there appeared upon the table a thin glistening streak, as if a brush of varnish had been lightly dragged across it. Oak's eyes followed the scrpentine sheen to the other side, where it led up to a huge brown garden slug which had come indoors

And later: "Two black spiders of the kind common in thatched houses enaded the ceiling and ultimately dropped to the floor." The meaning of these diverse happenings was clear: "There was to be a thunderstorm, and afterwards, a cold continuous rain. The creeping things seemed to know all about the later rain, but little of the interpolating thunderstorm, whilst the sheep knew all about the thunderstorm and nothing of the later rain." //////////Sem

What happened next is narrated in my book entitled "Doctors on Campus", a must read with regard to the background humour of medical students struggling to become doctors. I finally did become a doctor from Maulana Azad Medical College, completed my MD (Medicine) from Grant Medical College, Bombay, and then went onto complete my super speciality in Under Sea Medicine while posted with the Soviet Nava and US Nava.

It was a supernatural nostalgic trip to Sem. When the first 75 m race started and the little boys took oft, the lump in my theat grew as I remembered my own first 60 m race and first prize way back in 1995. The eyes grew a little misty and not because of the swirling mist that passfed through the first field at that point.

It was good to be back in Sem after 44 long years.

Time had come to a standstill. A few changes for the better, here and there, but overall little had changed in Sem.

The four days that I spert in Naini were to add to each and every single memory in terms of school, the Flats. Spowyiew. Tiffin

Top and Dorothy seat, the Government House and 'Guyyy' grounds. I roamed the thick forests which still exist, clicking fabulous photographs of the cliffs behind Sem the diffs in 'euvyies', the old bear's cave which is still occupied. I came upon the fresh pug marks of a leopard who most have been just ahead of me and disappeared round a bend, into the forest. The animal had probably observed me swishing my walking stick as I walked along.

Caphonsi

And Sem, Lexplored like a little boy just returned after the winter vacations and not 44 long years. The boys too were in awe of an old boy sporting the school tie. It had my old school cap on as I roamed Tallital, Mallital, the Mall Road, the Flats and around the lake.

The best part was actually getting together with two old classurances of mine. Sodihir Shah and Hr. Shah and the years just melted away... have little boys talking to the dozen as their families looked on in wonder. One can never forget Garam Pani where, besides the swimming, the

fabulous picnic lunches provided by Sem were always a treat. My book on Sem entitled "Heartaches and Heartheats" with Jaico Publishers and still under

consideration, will reveal a whole lot of wonderful anecdates and chost stories. Finally, after an eventful four days I drove back to return to reality and my command. We've all changed but Sem's physical features are just the same the class rooms, the box rooms, the dorms, the study hall, the chapel, the old

ISC class. Stone Cross, the playing fields. Donaldabad, the twin towers (a landmark of Naini) and the gym, And who can forget the Tuckshop, where old Tucky's son still provides the most sumptuous pastries and samosas. I quite enjoyed the stick-jaw presented to me as I wandered around. For those of you old boys who have the stamina, the physical fitness and

the inclination to rediscover, as I did, the hills and forests, my advice is that you carry along a walking stick. This is a handy implement for climbing up and down the hills and forests and a token weapon against the unpredictable And do not forget to carry your old school tie and school cap with you.

Sem is still a lovely heritage school.

वेगी और प्रेमरी के बीच प्यार का गयात इतिहास रहा है। राधा का कथा के प्रति

निकास पेस कीन बाद पालता है। मीदा की अपने मोहन के प्रति आसंक्रित को कीन नल सकता है। हीए-संज्ञा का स्वार, सीरी-परिवाद से बीच प्यार जो निस्तार्थ, निष्कपट, वाराना रहित था। बाको देश हो प्रदासक्तों में से है। सारवारों के पाद की देन ताजनकर जो आज सालवें आपनार्थ को रूप में नहीं में है क्या कभी बुसने वाली अभिवासित है। यह तो एक अमर प्रेम क्या का ज्यातना क्या है। कर को अपने में न तो प्रांत का सफता है और न ही प्रशंका दर्शन रखों में किया जा राकता है। यह तो एक ऐसी सुखद अनुभूते हैं जिसका केवल अहलाल किया जा सरलता है।

मों जे वाल्सल्य में रूप कुछ है जो माता शब्द की महिमा को महिमामय बनाता है। मान-अदय ऐसा स्थानादिक करन और प्रयोज है जिसका वर्णन ही सम्भव नहीं।

आज के इस काल में हर नारी शेष्ट दियी पायर एक आई आगदनी देने वाली नीवारी करना बादनी है। किसी दफ्तर से नोकरी मिलना जनना सरल होता नहीं जितना कि प्रतीत होता है। यदि आप के पास पैसा है तो आपकी नौकरी पक्की और ज्यादातर कथान वर्ग से आदी महिताओं को नजर अंदाज कर दिया जाता है। जिन्हें नीकरी मिल जाती है वे अपने आप को खक्षणसीव समझती हैं। आज नोकरी करने वाली ज्यादासर महिलाये विवाहित हैं। उपनी आर्थिक विवासि को मजबत बनाने के लिए एक रूपी के लिए यह बेहद कार्टिन कार्य है क्योंकि हमास समाज नारी की इच्छत करना नहीं जानता है। स्त्री के द्वारा किया गया काम समाज की दक्षि में नवच्या होता है। दिन भर शत भरी सहकों पर चलने, बक्तर में काम को बोच सहना और उसके बाद जब वह घर लीटकर आती है तब उसे पानी के लिए भी नहीं पूछा जाता। अपना काल हर परुष को श्रेष्ट दिलाई पत्रता है परन्त स्थियों की मेहनत को नजर अंदाज कर दिया जाता है दस्तर से लौटने के परचात नारी अपने गृह कार्य को सम्मन्न अपने में जुट जाती है। किसी से शहायता जेना वसे परन्द नहीं अपने छोटे से परिवार की जिम्मेदारी वह अपनी दृष्टि में बसा ही अस्त्री तरह से निभाती है। एक नारी का ज्यादा करत दकार में बीतने के कारण वह अस्ते बच्चों के साथ अधिक वक्त नहीं दिला पानी दिलाने कि तन्त्रे को यह जाने लगता है कि पसकी अपनी मों के जीवन में कोई महत्व नहीं है और उर का रनेह और विख्यान आपनी मीं पर कम हो जाता है। माँ के सबसे करीब होने के कारण असे तो दाख होता है परना वह क्या कहता नहीं। पिता के अनुसार घर की और बर्ज की पूरी जिम्मेदारी नाता की होती है और बस्से के पूरे खादातर बरी संगत के लिए उसे ही जिम्मेदार बताया जाता है। ऐसे कई किस्से सामने आए हैं िस्तारें सफार के व्यक्तिक ने जसके हाजार में बान करने वाची महिला का गलन प्रत्यंत जाने की कोशिया की गई है। नारी की इंप्यात ही उसके सिए सब कुछ है और यह बीज उससे छीनने की कोशिश की जा रही है जो कि नारी को चारवीवारी के अंदर रहने पर मजबूर कर रही है। नारी के सबक पर निकलते ही उसके साथ प्रेस-प्राप्त अगद शब्दों का प्रयोग और अशिष्ट खुदलार किया या रहा है जो कि युगले मन में भय को जन्म दे रहा है।

आज हमारे मुल्क को बहुत बिछन्ना हुआ माना जाता है क्वोंकि हमारे गुल्क के पास पैसे की राजन नहीं है। परिवार की आर्थिक स्थिति को मजबत करने से लिए जब महिला सारी वहनीयों को पार करके विकलना पास्ती है तह जस पर रोज-टोक की जाती है। परना नाई ने आर्थ भेग लिए हैं और अन नह जारे संसार का सामना रूपने को सैवार है। वह अपना एक राज्य स्थापित करना चाहती है ताकि उतका भी आदर-सरकार किया जाए और नगण्य न माना

आज नारी घर की कारबीवादी से निकल कर नौकरी के लिए तायर हो गई है। इस बोहरे हाकिल को निकाने में नारी को अनेक समस्याओं का सामना करना यह रहा है, उनका उल्लेख करते हुए अपने विवार तिविए।

प्राचीन प्लार से श्री चारियों को पुरुषों से कम विस्तार दी गई है और नारियों पर ही अंध्रेड करने इस विकास कि है कि उन्हों के उन्होंने करने हुंस चारिया को बहुत करनी राहर से निष्पार्थ है पर आज भी इस कारिय प्रतिक्रियों के मी विहल्स की नहीं है। हिस्से की को को पुरुषों जिला चुड़ियान और कुरत चारित करने की चाह में आज में परेसू पिन्मेवारियों को निरुष्ठ हुंस परिकास करने लगी हैं।

ने पनका नीकरी की प्रदेश दिस्मेदारियों को अच्छी तक निमाय परन्तु कुछ नात करने की तक ने पनका नीकरी की और अवकंपन बहाय है। इसी अवश्यक्त गारियों पर से बाद निमायका नीकरों करने नहीं की अपने को को अवार्ष आप के पुरार्थी जीवाना सुराद व वृद्धिनान निवास किया है। कई कीज में तो नारियों ने अपने आप को पुरार्थी से सुराद व वृद्धिनाथ पाता है।

रीकरों-पंशा भारियों की दूसरी सबसे बजी समस्या है ब्यान की। क्योंकि वे शीकरी भी कसरी है और मरेन्द्र काम भी करती हैं. वे बहुत बळ जाती हैं और उन्हें आराम करने के लिए समय भी नहीं बिक्ता। जो उनका जीवन बहुत ही कठिन कर देता है।

गीकरी करने वाली और ले कि का और गमीर काव्या है कि नीकरी और भर के कथ बाध करने से यह उसने अधिकार को गमीय तनक देने में असका सीता है। इसके करना तनके परिवारिक बीतान में उसने आ जाती है और कई समस्पार्ट मी जराना होती हैं। इसके काव्या समक्ष परिवार दूसरे, हैंट जाने का स्वत्या भी बच जाता है।

नीकरी-चेटा नारियों की एक और बड़ी समस्या है कि उन घर कान कर बहुत वहां बोड़ होता है जिसे तहन करण बहुत ही जुड़ैकल वन जाता है इससे उनकी एक समस्य यह भी बड़ी Sem है कि स से एक अपनी नौकरी पर पर्याप्त प्यान लगा जाती है और नौकरी के तनाह में य तो क

अपने घर के कार्यों को इंग से कर वाती है।

ऐसी महिलाएँ काम के बोड़ा के चलते तनाव से चरत हो जाती है। तनाव कई बीमारियों को जन्म देता है। तनाय से फँवा रकानाम, सर गर्द, बदन यदं और नामजोरी का नर्याय बनता है। इन श्रीमारियों से कई और परेशानियों उत्पन्न हो जाती है और वह सिजसिसा प्रसार रहता

बोक्सी करते ताली प्रतिकालों की और रासीर समस्या कमलोरी है जो अत्यदिक साम करने और तनाव से उत्पन्न होती है। कफातीरी के कारण उन्हें कान करने में समस्या आवी हैं. वे न लो मीकरी और न ही वे घरेल कार्य हंग से करने में राक्षम रहती है।

जीकरी-पंचा महिलाओं की ये सभी समस्याएँ दोहरे दावित्व को निभाने के कारण प्रत्यान होती हैं। उन्हें इन समस्याओं से रोज दी-बार होना पड़ता है। क्योंकि हमारा समाज यह नानत है कि पुरुष की जिम्मेदारी है नौकरी कर परिवार कताने के लिए पर्यापा वैसा कवाना और नार्व की जिम्मेदारी है भरेलू कार्य करना जैसे छाना बनाना, बर्नन नांजना, कपढ़े धोना, झाड लगान आदि। जिस दिन हमारे समाज का यह नियक हुटेगा कि पुरुष का काम है नीकरी करना और मारी भी जिल्लेकारी है घरेल करने करना, जस हिए लारियों की अधिकतर समस्याओं का समावत हो जाएगा। हमें बस यह एहरास करने की आवश्यकता है कि घरेलू कान करना रेंग्ड नारिय वर ही यापित्व नहीं बल्कि परिवार के प्रत्येक शवस्य को घरेत, कार्यों में क्रम बदाना चाहिए mile किसी पर भी सारे कामों का अस्तानीय बोझ न पड़े। समाज में नारियों को भी वही डेस्टियत देखें भाकिए जो समाज मुख्यों को थेता है। जन्हें पुरुषों के बरावर टेरियन देगा शरपण आवश्यक है वाकि रामान में कर बर बर हो हम लड़कों यह शोधना माहिए कि गारियों के बाद किया गया केल-भाग पारी है का नहीं।

निकंप प्रतियोगिता - प्रथम रखन प्राप्त

आज की बवा पीढ़ी विशाहीन हो भई है। जिस्सेबार कौन ?

परिवर्तन प्रीवन का एक अभिन्न दिस्सा है। सनय से साथ साथ, न जेवल देश है देशानिक फलति हो रही है, बल्कि हमारी सामध्यिक व्ययस्था, रिश्तो और उनके महत्व भी बढ़त को है। साथ ही हम सभी की सोच में भी परिवर्तन जा रहा है। वह परिवर्तन अपने साथ को सकारात्मक बदलाव शाया है। परन्तु इसके हमेशा नकारात्मक पहलू भी होते हैं। आजकार ह क्यों का नानना है कि उनके बस्के यानि, शास की तुवा पीड़ी दिशातींग हो रही है। परन्तु स केवल उन्हों की सोच का नहीं था है। उन्होंने देश की चन्नति की लटक अपने कदन बढ़ाए का वैद्यानिक अधिकार किये और देश ही नहीं चुनिया को कई बे-लिस-पेर के विस्वासों से कुछ किया। जब वे स्वयं द्वा पीडी थे, तब अवस्य ही, उनके माता पिता का मानना होगा कि स्वा पोदी विकासिन हो रही है परना जन्होंने वही किया जो पन्हें रही लगा। आज हम उनकी जगह में खड़े हैं और वह अपने माता-पिता की। इसे समय और उसके साथ आने वाले परिवर्तन का क्षेत्र करियो कि अपन एक्कर करना है. जाज की ग्रंग पीठी विभागीन हो गई है।"

राजा राजगोदन रॉय ने जब सती और ओहर जेवी कर सामाजिक प्रथाओं के खिलाब अवाज अवार्ड तब जनके पर्वाले को यह बात कभी भी भाई न होगी। अपनी पुरतान प्रयाओं को अबानक गतात करार कर देना उन्हें अवज्ञा नहीं लगा होगा। परन्तु यह प्रभाएँ पूर्ण रूप से गता थी। राजा राम मोहन रॉय ने समाज को सती और जीहर जैसी प्रधाओं से वक्ट किया। आज अगर राजा राग मोहल तेंग अन्ते यथ से दिसाहोग न होते हो आज भी पति की मृत्यू पर पत्नी को साथ उत्ताम जाता। ऐसी मर्बादाओं को मानने से बेहतर तो यह है कि व्यक्ति दिशाहीन हैं

ऐसा तो कभी नहीं हजा कि एक मीड़ी के सभी लोगों ने अपनी मयोदा का पूरी सगत व विश्वास से पालन किया हो। हायर युग में भी जब साथ विष्णु अवतार कृष्ण इर भूनि घर वाले थे. तब भी दनिया कंश और शिशुपाल जैसे लोगों से मुखा न थी। कौरवों ने तब भी भीर हरण किया था। तब भी लाहानड में पायड़वों को जलाने का प्रयत्न हुआ था। भीषा फिरामह, दानवीर कर्ण, द्वोत्राचार्य और कृत्याचार्य जेशे वकान लोगों ने भी कपट से अकेले अभिगन्यू का वस किया था। क्या वह गलत नहीं में, क्या वह दिशाहीन नहीं में, जिस प्रकार क्या गीठी में भी कई लोगी हो मलतियों व गुनाह हए, उसी प्रकार अपन ने वर्ड ऐसे लोग है, जो अपने कर्तव्य का पासन नहीं कर पाते हैं और कथट का गार्ग चुन जेते हैं। घरन्तु दन कुछ लोगों के कारम गुरी पीढ़ी को दिशातीन घोषित कर देना वसित नहीं है।

यदि यस पीड़ीयों एउनी सामाजिक व्यवस्थाओं के विसाफ करन न उताती तो आज की बिकरों धर की चार दीवारों से अंदर ही सीमेश स्त्रती। तब मारत को करपना कावता, इंदिय ///////SemJ///////

आज की इस दुवा पीढ़ी चलना अगने माता-फिटा से ही सीखा है। हमारे अंदर भी नहीं संस्कार व सान्यवाएँ हैं. जो हमारे माता मिला के बांदर है। यदि हम उनसे अलग हैं तो केवल अपने काम करने के लरीके में। जब भी उपने समाज और देश को लकतता की उन्हीं केंचाइये पर पहुँचाना चाहते हैं जहाँ आप भारत को जे जाना चाहते हैं। परन्तु हमारे काम करने का तरीका अलग है जिस कारण रागी हमें दिशाहीन जानते हैं। यदि हम दिशाहीन हुए हैं तो यह बेजात कारका लोकन है। तम विशामीन नाएँ हैं परन्त हमने छसी लक्ष्य की प्राप्ति के लिये एक अलग पारता चुना है, जो सहय आप प्राप्त करना चाहते थे।

एक विनामकारी हाक्सा

मानव सभ्यता के उत्थान और प्रगति में आय का महत्वपूर्ण वोगदान रहा है। आदिमानव इसे भीजन एकाने, चर्दियों की ठंड से बचने और विशेषकर आत्मरक्षा के लिए इस्लमाल में लाता था। इस अधुनिक और वैज्ञानिक युग में भी इसका महत्व कम नहीं हुआ है। गाँव की आबादी इसी पर निर्भर है और तहर में कारखानों में इसका सबसे ज्यादा महस्य है। पर आग के बारे में चन्द्र गया है कि यह एक अन्त्री सेवक है पर बरी मालिक है। इसके कई रुपयोग तो हैं पर अनिवंकित शोने पर राजरो होने वासी अति काल्यामा से पर बोली है।

एक व्यक्ति के जीवन में हादले हो होते रहते हैं पर मेरे जीवन में सबसे स्थापह व विनाशकरी उज्ज्ञा रेलो स्टेशन के पास की झमी-झोपरियों में हुआ प्रमंत अधिकांत है। वर्षिक परीक्षाओं के बाद हमारे शीतकालीन अवकाश प्रारम्म हो गए वे और नेनीताल की ठंड से बचने के लिए हमने दिल्ली, अपने मानाजी के घर, जाने का निश्चय किया। शाम आठ बजे की देन पक्रजने के लिए हम एक घंटा पत्रने में बच्चानी रेजने स्टेशन प्रश्नेन गए। अंतजार करते-करते कवा आत हो गया पर टेन नहीं आई। लोग तरह-तरह की बार्ट कर रहे थे और अपना रोष प्रकट

क्रम देर बाद रेजवे अधिकारियों ने राचना दी कि स्टेशन से अधा किलोनीटर पहले टेन का इंजन पटरों से उतर कर नज़ड़ीक की झुगी-झोगड़ियों में जा एसा था और कुछ निटटी तेल के इमों से दकराने के कारण बस्ती में आग लग गई थी। सभी लोगों में इद्धकर महा गया और कई लोग घटना-स्थान की ओर बढ़ने लगे। तम भी एनमें शामिल हो। कार दर जाने के बाद हमें झोपडियों से उठती हुई लगई और भयानक हाहाकार खनाई दिया और हमारे कदम और तेज हो गए।

घटना-स्थान प्रतिवचन समने देखा कि कई दिखे पानी से प्रमानक खोपडियों के बीतन घुस गए थे। कई लोग वहीं भीड़ लगाए खठे थे। बस्ती के लोग जो बच पाए थे, वे अपने परिजनों के लिए बीच-बीचकर से स्त्रे थे। उस आग की तपन उतनी तेज थी कि कई मीटर दर साठे होकर भी परीना-प्रशीना हो रहे थे।

कपओ, बीत और छपारों से बनी श्रीपदियों में आग और तेजी से फैल रही थी। अस्मियानन बात भी यातावात और झोपडियों की तरफ एकका रावता न ताने से कारण अभी तक नहीं पहेंचा था अनेक लोगें बच्ची में रूपरी और पानी भरकर आग बुझाने की असफल कोशिय कर रहे थे। हम रूब भी इस भवानक दश्य को देखने के लिया कछ नहीं कर सकते थे। कछ लोगों से यता साम कि टेन में नीवाद राजी लोग सरक्षित से पर बबरी में सेकारों लोग कीम करे के जिनक भवावत हाहाकार अभी भी सुनाई वे रहा था।

A HUNDRED YEARS AGO

AN EXTRACT FROM THE COLLEGE ANNALS 1906

The annalist writes:-

Turning now from the region of books and examinations I shall occupy myself for a short time with the playground and all appertaining events. If the success of the athletes be measured by the number of cups and medials brought from this year from The Flats I.

should be inclined to say that they have fallen off. This to a certain extent is true. The day when it was considered a surprise not to be able to exhibit all the cups and medals of the season in St. Joseph's is fast becoming a tradition, our teams are not as active and vigorous as formenly but I fear the amount of skill and muscle available in the College are

not sufficiently developed by training and practice. If, however, the teams failed to win the cups this year if was not altogether due to the lack of training. The Depet, this year fisked a powerful combination and though the College team fell before them after lesen struggles, yet it must be admitted that no other team in the station would have made such a stant. Our backey team, which during the year in practice matches had 41 goals to its credit with four against them, was defeated by the Depot on a vete eventy.

But the winning of cups and medals is not the chief aim in encouraging athletics. The amount of good, physically and mentally, which result from a loon interest in games is well nigh incalculable.

This year the cuporty awaited middle school Flocution Competition took place on the 22nd of July. This was for classes 6 and 7. Two contestants from each class participated in this competition. The boys selected made thorough preparations for the 'big day'. They were seen feverishly memorizing their poems. The teachers also played their role by instructing and guiding them.

On the day of the contest the competitors' talent was put to the test. The boys recited their poems exceptionally well. The judges were very impressed with their wonderful performance - except for mine, because I could not perform as well as was expected of my. Before going on stage I got awfully nervous and as a result. Iforgot some lines. My hopes were shattered!

As the time for the announcement of the results drew near, the excitement mounted. The announcement was followed by loud cheering. The happy winners were congratulated and encouraged by the Principal. The boys who won were extremely happy with themselves, and as for the ones who didn't, they were encouraged by friends and teachers to perform better next time. Nevertheless, it was a time to rejoice for all of them!

NIRIP DEEP MEMORIAL FOOTBALL TOURNAMENT

Shantanu Lala - 9 A

This year eight schools participated in the Nirip Deep Memorial Tournament. They were Sem, Samwal, Amtul's, Birla, G.I.C., C.R.S.T., Saraswati Vibar and BSSV. The tournament lasted a week and many boys were appointed as officials. It was a fun-filled week for the players and even for the students who witnessed a week of great, competitive football action.

Our team did quite well but in the semi - final against B.S.S.V., we lost 2-0 in penalties. The second semi-final was played between Birla and Saraswati Vihar, in which Birla too won in penalties and that too in a sudden death.

On the day of the final it was raining heavily when the Match began. In a thrilling encounter Birla emerged victorious and were awarded the Nirip Deep

Memorial Trophy which they proudly held aloft.

The Annual Inter-House football tournament was to be played on the 27th of September. The finalists were the all-time erch rivals, Pant House and Gandhi House. In the opening minutes of the match Gandhi House scored from a corner to take the lead. There was a loud cheer from the spectators and the Candle House players ran up to Nilay to congratulate him on his goal. The match proceeded and just before half-time the score was level through an own goal by Gandhi House. The referee blew the whistle signalling half-time. Both sides discussed their strategies and changed their formation according to their game-plan. Pant House played in a 4-2-4 neutral formation against Candhi's 3-3-4 attacking formation.

In the second-half Nilay scored again. The second goal brought Pant House under more pressure having lost one of their lethal strikers, Namit Mehta. due to an injury. Pant House tried their best to equalise but Nilay scored yet again to become the hat-trick hero. A second goal from Pant House towards the and was not of much help as the referce blew the whistle to give Gandhi House a well-deserved victory, 3-2. The end of the match also signalled the gred of the football season for 2006.

THE SCHOOL FETE

Sumit Bhagat - 10 B

The 30th of September was the day chosen for the biggest fiesta in Nainital - the Sem fete. Students were up at 6 o'clock in the morning and were busy putting up charts. The gods had blessed us with a bright and sunny morning. There was excitement and enthusiasm in every heart and all were in a festive mood. The fete commenced at 9:30 am when Rev. Brother Fitzpatrick cut the ribbon and everyone rushed on to the field. Soon students arrived from all the neighbouring schools and the place was swarming with people. As always the Cassette and CD wheel stall was crowded with people. The other games' stalls where people could try their luck included Feed the Clown, Lucky Card, Hot Wheel, Hoopla and Knock em Down. Delicious mouth-watering things to eat were prepared by restaurants such as Embassy, Gazebo, Anupam and Lee's Kitchen. The occasion was made even more festive by rollicking songs from the Class 10 stall. The fete was also a perfect occasion for one to express oneself through flowers, messages and songs to one's friends. Time passed quickly and before we know it, it was 2 o'clock. The fete came to an end and though it had been a long and tiring day, we had enjoyed it thoroughly and hoped that others had enjoyed it too.

In pool 'A' the semi-final was played between Manik Tandon and Dennis Hsu, whereas Namit Mehta and Utkarsh Mahar were the semi-finalists in pool 'B'. The final was played between Manik Tandon and Utkarsh Mahar on the 29th of March. The gold medal was won by Litkarsh Mahar and the silver and bronze medals were won by Manik Tandon and Namit Mehta respectively.

A WORKING MODEL OF THE VINDHYAGIRI DONATED BY THE NCC (NAVAL WING)

A beautiful working model of the Vindhvasziri was donated to the school by the NCC (naval wing) under the command of Capt. Parmar. It was completed in one month and had eight cadets working on it daily for two hours.

While making any model, especially that of a ship, the following are usually kent in mind while marking or grading the model: (1) Its dimensions vis-a-vis ratio

- (2) The detailing
- (3) The time taken to complete it.

Normally, I am told, it has to be completed in a short span of time, and the major marks are given for its balance in water, and whether or not it follows a straight trajectory. Almost 46% weightage is given to the last factor.

It looks very beautiful as it sits on the top cupboard of the Principal's Office in St. Joseph's.

I am afraid of spiders because some of them are very poisonor

Spiders are insects that hunt and eat other insects.

Spiders catch their prey with the help of their web, which they produce

from a small hole at the end of their abdomen.

When spiders catch their prey they inject poison into their body.

Spiders can't hear but they have got very good eyesight and they can sense even small movements with their feet.

Some spiders trap their prey by building colowebs and some others hunt their prey. They also lay traps for catching their prey. Spiders lay eggs and some spiders even take care of their babies by car-

rying them around on their back

There are many kinds of spiders. Some of them are very small. The biggost spider is as big as a man's fist. This spider is called TARANTULA and is found in the forests of South America.

I read this in my book called ULTIMATE VISUAL DICTIONARY on spiders. Spiders must shed their exoskeleton to grove. During moulting, the exoskeleton splits and the spider pulls itself out, leaving behind the old exoskelcton

Spiders may look ugly and scary but they are useful. They keep a check on the number of insects. We must not kill spiders and we must not destroy their web.

WORK AND PLAY GO TOGETHER

Work is very important for us because we need to work to earn our living. Play is also equally important for us because it keeps us fit and healthy. A healthy body has a healthy mind. We need to play to have a healthy body. So we can say, that 'work and play go together'.

If we do not work and play, we will become weak and dull. All work and no play or all play and no work is not good for us.

/////(Sem)//////

For a student, play and study, both are important A student should work hard and put his heart in his studies. He should also play daily to have a fit body.

We should divide our time equally for work and play, as both go together and both are important.

Democracy in India is certainly not of the people, not for the people and

not by the people. Democracy in India has been reduced to a farce.

Counter View

Bhaswar Sengupta - 9A

What is democracy? It is a government of the people, for the people and by the people. I believe that democracy in India is not a myth; it is true, realistic and all-prevalent. It is through democracy that we have been able to uphold the Gandhian ideals of an inclusive, secular society. Critics may argue that the very political process in India has inherent

defects, but if it were so then after the emergency the Indira Gandhi regime would not have been thrown out of power and later on, the fortunes of the BIP would not have been reversed by 'India Shining'. These examples are sufficient to prove that democracy in India is not a myth - it is a reality. Democracy in India is firmly entrenched at the grass root level in the

form of the Panchayati Raj System. The Indian masses are politically savvy as they turn out in large numbers to express their choice of leaders through the ballot box. No one can take the electorate for granted in India. Our politicians have to prove their worth, failing which, the Indian masses will not give them another chance. Is this not what democracy stands for?

Where clse does an election commission cummand so much independence and authority? We have the outstanding example of T.N. Seshan who serves to reaffirm that democracy in India has come of age. Freedom of expression, an essential prerequisite of democracy, has been

preserved in India. The diversity of opinions expressed by the media and the country. The sting operations and the Tehelka case are proof enough that democracy has truly arrived in India.

The Indian masses have a right to express their views and protest against the government when required. The Right to Information Act, meant to bring about transparency in government, is proof that democracy in India exists in

the real sense. ///////SemJ/////// Today's India is a rating, curtificent, supreme power challenging China, the United States and France. India's well publicized strength is manifested in crazy real estate prices, software domination and Lawri Niwae Mittal. We have never been so admired. THE WOOD IDS AT OUR PERTIAL III his just possible only

Democracy in India is a reality and generation after generation will enjoy is fruit. The struggle of existence has been.

JE YOU PEEP INTO CLASS 9 A...

Harshvardhan Bisht - 9 A

If ever in Sem your life becomes still, Just don't worry, chill....ll..., And this is what you do— Just peep into Class Nine A And I bet you'll get many reasons To kick your tensions away!

> The noisiest class in school is really, really cool... We have time for books... We are also conscious of our looks!

Paper balls flying as if on wings And whizzing across the room are pencils, rubbers and rings, The blackboard remains no longer a blacks.

It becomes chalky... chalky!

There is an air of mischief all around,
Books are nowhere to be found.
Sobbing and crying is not for us teens,
We are not [critish] and never have been!

Battles take place in our Tight Club', Hands hold collors... But seen all enmity is forgothen As lots of pending work has to be done.

IMPORTANCE OF PROJECTS IN SHAPING OUR PERSONALITY

Khailendra Singh - 9 B

this century.

School time is the happiest time of our life. This is the time when we can expand our horizon to the maximum. So apart from studying what is in our syllabus and participating in sports activities, it is also essential that we learn about some other topic on our own. This can be done through projects.

In about we are assigned project work on different subjects from time to the R becomes an integral part of our curreitum. In this several advantages and also let us in shaping one's individual personality. When we are assigned opposet on any analysis who have be so to the library and search through books and recopapers. We develop the ladst of reading and start employing it. We gather information from the internet which is a feater medium of gainting knowledges in

We also find information from nature by studying different plants and animals. Like in Biology, when we get a project most of the time the topic is based on the study of plants and animals. When we find information for the project we come to know about different plants and animals, their features and investance for use and the environment.

After collecting all the material, the information has to be assembled in

an organized way to make it understandable.

We are always given a definite time for submitting our project work.

failing which strict action is taken against us. We are punished by not being permitted to enter the class until we submit the project or we are told to complete our project either outside or at the back of the class.

our project either outside or at the oaks or unclass.

The projects which are very well presented are also exhibited at our annual exhibition and shown to all the neighbouring schools. Some awards are also given for the best projects.

while we are working on our project, apart from expansion of knowledge, we also get this chame to improve our over-all personality. We learn how to organize things well, our presentation seldlis are enhanced and we learn how to express our ideas. As we have to submit our projects within a delimite time we also learn time management.

So we should always do these projects enthusiastically and submit them

on time.

THE BELL

Namit Pathak . 9 R

Perched atop, near the staircase that leads to the Principal's office, I am Sem's school bell. Sem has been my bome for a century and more. I have witnessed many students metamorphosing from mischievous boys into grave greybained adults.

Through turnorized, I play a very important role in the life of the students My sound is both tunger at hand time their fear and nervoursess before tests and coate in the paper of the property of the property of the property of the their poy at the approach of the holidays. But I am now of and neferble their poy at the approach of the holidays. But I am now of and neferble before the property of the property of the property of the Electric feel is proving to be a better substitute. Though I am still occasionally rung when there is no electricity.

Well, the winter is approaching that will soon trigger cold days, hall, snow and chilling winds. When all the students will have gone, I will hibernate; in the springtime I will be awake when the empty corridors and stair cases will once again resound with the footsteps of the students.

I am as it were the heart-best of Sem.

BEEP! BEEP!

Craig Macgowan - 10 A.

Look around you and you will see the whole world going "Beep" Loell phones are in and how! If you are not carrying one, your peers consider you to be a PCSRLL And it's not senough to own one... "Do you have the latest mode?" "Does it have the latest features?" are the other heard queries.

In fact going by the popularity of cell phones today among the younger

generation, it is difficult to believe that just 15 years ago they were considered a parity. Where did the cell phone's fourney begin?

O'The cell phone's journey began somewhere in 1843, when Faraday's discoveries triggered off as wonderful chair reaction in technical development that slowly evolved into the phone technology as we know it today. It was only in 1973, however, that Dr. Martin Cooper invented the first portable handset and acceeded in making a call levil it. Soon TDMA, CDMA and CSSM technologies

were introduced and reached the far corners of the world.

Today there are 60 million customers with cellular phones and a whopping percentage of that are youngsees, who have adopted the cellular phone as
a wonderful symbol of their forever-on-the-move lifest pe that demands being
in touch all the time. Today you find young people all over the world using their

cell phones to talk, to SMS, to send and receive pictures and mails.

Today's cell phones have evolved to suit the needs of the youth. Companies producing oil phones are verying with each other to offer the latest technology and features. So now cell phones can be your e-managers, or even youre-self. Waith out, It's a revolution on the more! Beep! Beep?

EXAMINATION FEVER

Abhay Pande - 10 B

The atmosphere was gloomy. There were lines of worry on every much forehead. "Hey you have my Physics notebook, when are you planning to return it?" or "Did you get the cells I asked you to bring for my to-ch?" were the questions with which the boarders spread the days closed insolved of the usual, "How are you!" Time passed, the worry lines deepened, so did the hollows under the eyes. The students' decards were haunted by teachers and comination papers, it was not unusual for boys to ery out in their along. "I spilled ink on my answer sheet!" or "I know nothing!" The alarming symptoms of Examination Fever were growing more acute as the examinations were into a work away.

WHAT HARRY POTTER MEANS TO ME

Akshay Gururani - 10 B

I have always liked reading but the books which I enjoyed the most are the 'Harry Potter' books.

Thave always longed to be like Harry Potter in every respect and often ensidered what it would be like to be a wizard! How would it be studying in Sem-Hogwarts school of Witchcraft and Wizardry? Surely, it would be a marvalous experience to fly to school or a broom. Imagine the wonder of reaching distant places by stepping into fireplaces and also by Apparations.

How sports rularit would be if all the Sem boys would be riding to school on brooms. We would learn Withcraft and Wizardry during Chemistry Fracticals, Spells in Literature class and practice turning somebody into a squired during Maths. To make somebody womit slugs would not be bad at all and flash too during Physics Proticals.

I can imagine myself playing 'Quidditch' on the first field and every-

26

Nedy cheering me all around. If instead of Biology, Geography, and History, we would have Delence Against the Darth Arts, Violicox, Methology, Divination, Charms and Astronomy as our subjects and a half-giant teacher, like I lognid, its equild be fair. Inaughre physics in the auditorium and policepests roaming all

around the school and House-Elves cocking our food. If the celling of our Shaly Hall would keep on changing how strange and glifferent it would be and interesting too!

Vanishing right in front of our teachers' noses by covering ourselves with the invisibility cloak, when caught doing some mischief, would save us from many clies.

I am in asse of Harry Potter with his special powers and because he is the 'Chosen One', able to hold his own against all the dark and evil powers.

'Chosen One', able to hold his own against all the dark and evil powers.

Finally and frankly, I feel good that I am not like Harry Potter, because

the loss of parents at an early age and living with a cruel Aunt and Unric, losing one's loving Godfather and being complexity desclate makes one's life quite tragic too. Actually being a normal boy, living in a Muggle world, is really quite a privilege.

A LETTER TO ALL MOTHERS

Sumit Bhagat - 10 B Dear Ma.

You are the best, the greatest. True, the hand that rocks the cradle rules the world but you do more than that, you rule my mind and my heart. What I am is just because of you. You taught me to walk and talk, to be civil and honest.

I still remember, how just a less of yours made my loothache go away. You share my lappliness and my sudness. You have taught me what is right and what is wrong, it is only when I am away from you that I realize the countless sacrifice that you have made for the family. You are unhappy when I do not do well and that refly affects me.

One secret I want to reveal to you, but first let me tell you that I love you the most but have never had an opportunity to express my love. Ma, one of the four lamps in our drawing-room does not have a butl. I broke it a year ago when you were attending a function. I was afraid that you might discover my mytohyd in a forceword it. Whenever I don't want to study knot the thought of

mischief and so I covered it. Wehenever I don't want to study, just the thought of

beinging a smile to your face draws me back to my books.

Henow that your blessines were are and will always be with me. I have expressed whatever is in my heart. But these are more words and words are not enough to express what I really feel for you.
