

IIT Kanpur x OratoriX Workshop

Oratorix, a platform designed by passionate debaters from Kanpur, is thrilled to announce an 8-day Summer Workshop in collaboration with IIT Kanpur! This exciting program, running from June 9th to June 16th, offers aspiring debaters the chance to express themselves, explore the art of debate, and evolve into confident public speakers

We believe that debating as an art is instrumental for logical discussions, critical thinking and policy making as well as analysis. However this art, has been largely restricted to the top schools and colleges due to absent or ineffective societies in most institutions and due to highly priced unaffordable out of the institution - debating organizations. Thus, we want to bridge this gap and train the students in this art at a price highly accessible but that cannot be possible without the support of our passionate seniors. We have kept the workshop prices so low that every student can afford it whilst also enough so that there will be motivation for students to attend

The workshop features 6 days of engaging sessions with different activities for 3 respective categories (Senior, Middle, Junior) and separate 2-day competitions in the end all led by our experienced team. These accomplished individuals are not only successful organizers of numerous online and offline literary events but also core members of their respective school debating

societies with a history of top finishes in various competitions. They've represented Kanpur at state-level tournaments and emerged victorious in multiple national-level competitions, bringing a wealth of experience to the table

Adding to this exceptional team are mentors from the prestigious debating society of IIT Kanpur. We are also fortunate to have esteemed individuals with national level debate laurels joining our mentorship panel.

This workshop promises to be a unique and enriching experience, equipping students with the skills to excel in oration and debate. Don't miss this opportunity to learn from the best and take your debating journey to the next level!

For more information and to register your students, contact us to set up an online meet. We look forward to meeting you!

Regards
Team OratoriX
