

World Book Day

Reading books is nourishment for the mind and soul. When this habit is developed at an early age, it helps improve vocabulary and contributes significantly to the overall personality development of students.

At St Nursery School, we celebrated World Book Day on 23rd April with great enthusiasm. The children recited the Hindi poem “किताबें करती हैं बातें” during the morning assembly.

They also enjoyed reading a variety of interesting books in the library, which opened up a whole new world of imagination and learning for them..
