Subject :- COMPUTER

STUDENT ASSIGNMENT

Write an html code for the following output :

What can we do to **STOP or at least lessen the amount of deforestation and conserve our own use of natural resources ?**

Here's a start :

Always use *both sides of paper* when writing,
drawing, photo-copying, faxing, etc. Recycle paper,
cans, glass, and plastic.

Buy ***paper products*** made from recycled paper: notebook paper, paper towels, toilet paper, books, etc.

Use pencils until they are stubs! Think of **pencils as gold** (you'll never lose them if you do).

Save water by **NOT** taking baths; instead take quick showers (turning off the water while you soap up) and then turning it back on to rinse quickly.

While washing your hands and brushing your teeth, turn off the water. You'll save gallons if you do.

CRITERIA FOR EVALUATION:

Proper usage of html tags, Presentation, Timely submission

GUIDELINES FOR SUBMITTING PROJECT
