Word of the Day

Serendipity

The occurrence of something that happens quite by chance, usually a happy instance.

Origin: The word was coined by English author Horace Walpole, as is evident in a letter he wrote on January 28, 1754. In the letter he refers to the discoveries in a fairytale called 'The Three Princes of Serendip". Serendip refers to what is now Sri Lanka, and the tale narrates the unexpected discoveries made during their travels. The author likens a discovery of his to the ones in the tale and calls it Serendipity, and the word is born. Apparently, the word was hardly used till the 20th Century. However, in the early 20th Century, the word also got an adjective - serendipitous.

Example: It was serendipity that brought me to this island.

Use the word of the day in a sentence of your own.

Today's Diary Pick

Dear Diary,

Guess what! I found my long-lost Friendship Album while cleaning my cupboard this morning. I made this album to preserve all the sweet and memorable photos of me with my friends. I decorated this album's cover with stickers, glitter, ribbons, stars, hearts, a group photo of me and all my friends and with the most important thing: love for my friends. I just smiled as I flipped through the pages of the lovely moments we enjoyed together. I also found a pouch in which I kept all my friendship bands and bracelets I got from my friends on Friendship Day. As soon as the lockdown is lifted, no one can stop me and my friends from doing all those silly and weird things we did. My friends are very special to me and no one can take their place. Ever!
