

St. Karen's Collegiate School Patna

Dear Parents/Guardians,

Several parents have come forward to make a request to the School management that their children be allowed to receive Online education in spite of the fact that they have not been able to clear their dues for the period prior to April 2020 i.e. of the last academic session. They have assured the school management that as and when they have the resources to clear the same or they reach Patna they will do so in the coming month or so.

The school management after giving considerable thought to the matter has accepted this request and consequently it allows all such children to receive Online education and assignment sheets under the belief and trust that their parents will honestly clear their past dues and also pay the current fees of this session in the coming 2 – 3 months. Thus no child will be disallowed/debarred to receive Online education on the ground of financial inability to pay the fees.

This is a special and extraordinary decision taken by the management only meant for the current unprecedented times and will not be a normal rule to be quoted or used in future.

ASST.DIRECTOR
