HOLIDAY HOMEWORK

AND

ASSIGNMENT

HOLIDAY HOMEWORK

Summer comes with a bagful of opportunities for Students to rest and enjoy. Each child excitedly waits for vacations. Summer break is the most fun time of the year as this is the time we explore and learn new and exciting things.

It is crucial to plan for more fun, creative and recreational activities for the vacations. It is highly significant as vacations help students acquire new skills and become more productive. Student can indulge in different activities that can groom their personality and boost up the confidence level.

Learning in a positive environment not only essential for the growth of knowledge but also growth in behavior of students.

By adapting good manners students can make a positive impression of their behavior on those around them. They are lifelong assets and should be practiced until they become habit. The four magical words children can make a difference in their behavior.

Please, Sorry, Thank you, Excuse me.

Useful Guidance

- Watch informative programs.
- Set limits to use smart phone and focus on learning by doing.
- Work on building up your strength with the help of innovative ideas to develop your mental skills.
- instill enough discipline in yourself to achieve success in life.

Healthy Habits

- Early to bed and early to rise.
- Take good care of health and daily hygiene.
- Avoid junk food and prefer homely food.
- Stay hale and hearty.
- Keep your surroundings and environment clean.

Moral Values

- Pray daily.
- Make an exercise or yoga of your continuous habit.
- Touch your elders feet daily in the morning.
- Obey your elders.
- Show respect for juniors and seniors both.

Set Priorities

- Prepare a schedule.
- Plan at least 2 hours of study time to work on assignments.
- Manage your time.
- Do your homework systematically by yourself.

Holiday Homework with pleasure rather than pressure

Subject : English

(वितान)_सिल्वर वैडिंग
अपठित पद्यांश
अपठित गद्यांश
रचनात्मक लेखन
पत्र लेखन

Subject : Chemistry

ASSIGNMENT-1

BIOMOLECULES

- Q.1)What are monosaccharides?
Q.2)What are reducing sugar?
Q.3)Glucose or sucrose are soluble in water but cyclohexane and benzene (simple six membered ring compounds) are insoluble in water Explain.
Q.4)How do you explain the absence of aldehyde group in the pentaacetate of D-glucose?
Q.5)The melting points and solubility in water of α -amino acids are generally higher than those of corresponding haloacids. Explain.
Q.6)What do you understand by the term glycosidic linkage?
Q.7)What happens when D-glucose is treated with . the following reagents.

- (i) HI
 - (ii) Bromine water
 - (iii) HNO₃
- Q.8) Define the following as related to proteins:
- (i) Peptide linkage
 - (ii) Primary structure
 - (iii) Denaturation
- Q.9) How do you explain the amphoteric behaviour of amino acids?
- Q.10) What is the difference between a nucleoside and a nucleotide?

ASSIGNMENT-2

SOLUTION & D&F BLOCK ELEMENTS

- Q.1) write all the formulas in the form of flowchart.
- Q.2) Draw the graph for positive and negative deviation from Raoult's Law.
- Q.3) Draw the graphs for all colligative properties.
- Q.4) write the elements of 3D 4D and 5D series also write their electronic configuration.
- Q.5) write the elements of F block also write their electronic configuration.

Subject : Physics

Do NCERT exercise questions of chapter 1,2 and 3.
Prepare working model on any one of following.

- i) Robotics
- ii) Remote Sensing
- iii) Energy conservation
- iv) Force and Energy

Subject : Biology

A. Complete the both assignment.

1. Identify ABC and D in the table given below

Microorganism	Product	Biological activities	Medical ailment
A	Streptokinase	Clot buster	Transplant
Trichoderma Polysporum	B	C	Surgery

2. Name the enzyme produced by Streptococcus bacterium. explain its importance in medical sciences.
- 3.a) How do Ladybird Beetle and dragonflies act as an biocontrol agent?
b) Mention the constituents of 'flocs'.
4. Name the categories of organisms used as biofertilizers with an example. How do they function in organic farming?
5. Read the following passage and answer the questions as follows :
- A farmer has been cultivating paddy in his field season after season. Of late, the yield started increasing.
- a. How does nostoc help to increase the yield of paddy crops?
 - b. Name two other organisms of the same category that can serve this purpose.
 - c. Name two free living bacteria that can be used for this purpose.
 - d. What name is given to all these organisms that enrich soil fertility?

Assignment number 2

1. Some allergy triggers sneezing and wheezing in human being .What causes this type of response by the body?
2. Name the disease caused by Trichophyton in humans.
3. Where do T- Lymphocytes and B- Lymphocytes become differentiated?
4. Diseases are broadly classified as infectious and non infectious diseases. pick out the non infectious diseases from the following list:
Cancer,measles, Diphtheria Allergy
5. Name the types of acquired immune responses and the special types of lymphocytes involved in providing them.
6. Name the following
 - a. The vector of dengue fever
 - b. A vaccine produced by Recombinant DNA technology
 - c. The type of immunity that is present at the time of birth
 - d. A fish that helps in eradication of mosquito larvae.
7. Mention the property of our immune system that is
 - a. responsible for the rejection of graft
 - b. the basis for vaccination
8. The immune system of a person is so suppressed .In the ALISA test, he was found positive to a pathogen
 - a. name the disease and full form ,the patient is suffering from .
 - b. write the full name of the causative organism
 - c. which cells of the body are affected by the pathogen?
9. Name two diseases each, which are transmitted in the following ways
 - a. through contaminated food and water
 - b. through insect vectors
 - c. through the air or droplet inhaled
10. (a) Name the respective forms in which the malarial parasite gains entry into
 - i) human body
 - ii) body of female Anopheles
 - a. Name that respective host and the site in their body, where the sexual and asexual reproduction of malarial parasite occur.
 - c. What is meant by
 - i) Addiction
 - ii) Dependence with reference to drugs or alcohol?
11. Read the following passage and answer the questions that follows:
Cancer is one of the most dreaded disease of human beings and is the major cause of death all over the world. The mechanism that underlie the development of Cancer, its treatment and control have been some of the most intense areas of research in the fields of medicine and Biology. Early detection of Cancer is essential for successful treatment and cure of the disease.
 - a. Name and define the property shown by all normal cells, but is lost in the cancer or tumor cells.
 - b. Name the two types of tumors.
 - c. Give two example of physical carcinogens.
 - d. Name and define the most fear feared property of malignant tumors.
 - e. What are Proto-oncogens?

B. Choose anyone topic from the following list and start collecting literature and relevant material on it. Submit the draft report with relevant case studies and other data after the summer vacations.

 1. *vaccine and vaccination*
 2. *Pollen and pistil interaction*
 3. *pollen grains and pollination*
 4. *medicinal plant / Ayurvedic medicine*

5.IVF /ART

6.Special mode of reproduction 7.AIDS or HIV infection

8.Cancer(diagnosis, symptoms, treatment)

9.Effect of pesticide in food chain

10.Bio -magnification and Euterofication

C. Draw the following diagrams of Biology in the practical file

a) TS of mammalian ovary and testis

b) TS of blastula

c) Disease causing pathogens (Ascaris, Entamoeba, Plasmodium vivax, Ringworm D.

Advantages of Aquatic organisms

hydrilla, fish, prawn

Subject : Mathematics

Revise : Ch – 3,4,5

Make a Flow Chart/Mind map of formulae of (i) derivative (ii) Integration.

Do all the Assignments I've sent in Class group.

Subject : Physical Education

Revise

Unit -1 Planning in Sports

Unit -2 Sports and Nutrition.

Unit-3 Yoga and Lifestyle.

Make a project report on yoga (Any 5 Aasans).

Subject : Music

1. मध्यमग्राम और षडज ग्राम में 22 श्रुति पर स्वर स्थापना का एक चार्ट बनाए।

2. भातखंडे जी के द्वारा रचित संगीत के कुल 10 ठाठ उनके नाम और उनके स्वरूप सहित वर्णन कर एक फ्लो चार्ट बनाएं।

3. रागों के समय सिद्धांत के आधार पर दिन और रात के 24 घंटों को किस प्रकार विभाजित करेंगे चित्र द्वारा प्रदर्शित करें।

4. तबले का चित्र बनाकर उसके अंगों को प्रदर्शित करें।

5. बड़े गुलाम अली खान जी के जीवन पर एक परियोजना का निर्माण करें जिसमें उनके द्वारा रचित रचनाओं का भी वर्णन हो।

6. राष्ट्रीय गीत का अर्थ सहित शुद्धलेखन करें।

Subject : Economics

Note : All the questions are compulsory.

Q: Explain the difference between Micro Economics and Macro Economics. Give suitable examples.

Q: "Money is what money does" explain.

Q: State the limitations of Barter System of exchange. How are these limitations removed with the introduction of money?

Q: Define money supply. State and explain the different components of money supply?

Q: Define Central Bank. What are the functions of Central bank?

Q: "Commercial banks create money in the economy." Comment.

Q: Explain quantitative and qualitative instruments of credit central. Give suitable examples.

Q: Explain consumption function with the help of a diagram.

Q: Draw a diagram showing straight line consumption function from it, how would you derive a saving function? Explain diagrammatically.

Q: Bring out the difference between revenue budget and capital budget. Give the items of revenue as well as capital receipt and expenditure of the Government.

Q: How is equilibrium rate of exchange determine explain with the help of a diagram.

Q: What do you mean by exchange rate? Explain the main factors which determine exchange rate?
